QUESTION PAPER SPECIFIC INSTRUCTIONS**Please read each of the following instructions carefully before attempting questions:**There are **TWENTY** questions printed in **ENGLISH**.

All the questions are compulsory.

The number of marks carried by a question/ part is indicated against it. Word limit in questions, wherever specified, should be adhered to. Any page or portion of the page left blank in the Question-cum-Answer Booklet must be clearly struck off.

Q No.	Marks	Q No.	Marks	Q No.	Marks
Q1	/10	Q8	/10	Q15	/15
Q2	/10	Q9	/10	Q16	/15
Q3	/10	Q10	/10	Q17	/15
Q4	/10	Q11	/15	Q18	/15
Q5	/10	Q12	/15	Q19	/15
Q6	/10	Q13	/15	Q20	/15
Q7	/10	Q14	/15	Total	/250

Instructions:-

- Legible Scanning:** Exercise due diligence in scanning your scripts for clear legibility
- Submissions** marred by poor scanning, notably those with illegible sections or blackened pages due to improper scanning, risk being excluded from the evaluation process.
- Non-Adherence Consequences:** Failure to comply with the aforementioned instructions may lead to the disqualification of your submission.

For Student Only

Start Time -

5:00 PM

End Time -

8:02 PM

Evaluator/Reviewer Suggestions

👍 😊 All the Best 😊 👍

Evaluator/Reviewer Suggestions

👍 😊 All the Best 😊 👍

Q

① RC Majumdar describes temple architecture as not just religious & social tool but political and economic mode of life as well

Temple architecture as synthesis :-

Art & religion

- 1) Depiction of people's beliefs
 - es) Somaskanda panel in shore temple
- 2) Mirror of Religious Practices
 - es) Hosting Alvars in Ranganatha swamy temple
- 3) Evolving religious philosophies
 - es) Natraja → Somaskanda → Ardhanareshwara evolution of panels.

1) Folklore of religious Teachings

eg) Ramayana Murals of Brihadishwara Temple

Synthesis of Art & Polity

1) Defiction of Kings as 'Dev putra'

eg) Krishnadeva Raya Statue in Venkateswara temple.

2) Divine legitimacy

eg) Angaikonde Chakrapuram Temple

3) Public welfare

eg) Tanks in temples

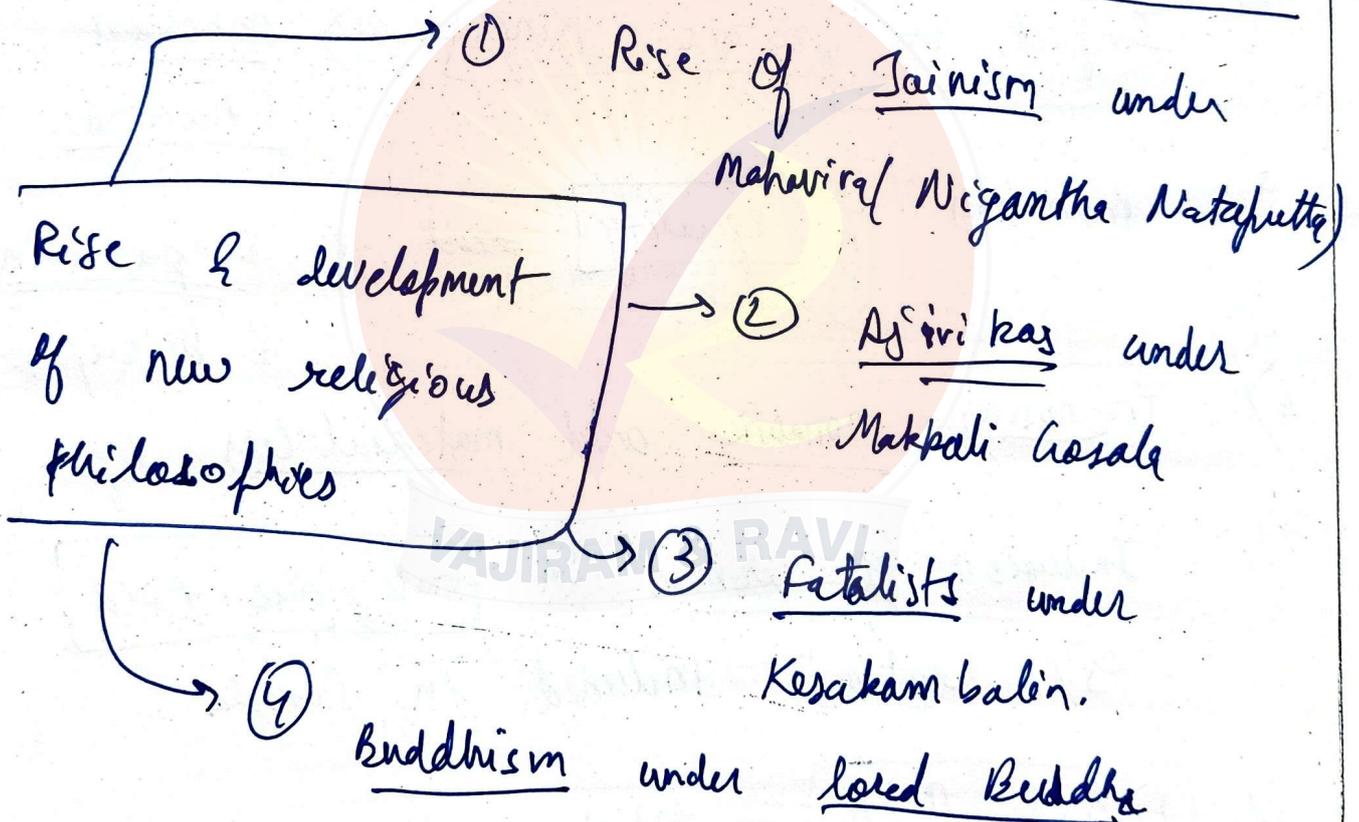

eg) Airabeshwara Temple.

Thus, our temples represent our rich heritage & must be promoted through Virtual Reality based immersive learning.

3

Q2

Ramila Thapar describe 6th Century BCE as first cultural Renaissance in Indian history which led to widespread & long-lasting changes in philosophy.

Significant changes to contemporary social life

1) Promotion of Ahimsa by Mahavira :-

dis courage animal sacrifice.

- 2) Promoting Aparigraha :- Simple & ritual-less living.
- 3) Acceptance of real-truth of life - Dukkha (Noble-truth) → following path of Buddha
 - eg) 8-Fold Path of ethical living of Buddha
- 4) Impact on future Kings eg) Ashokan Dhamma
- 5) Promotion of equality ~~and~~ eg) Sangha living & principles.
- 6) Promoting monastic and material-less life.
- 7) Inclusion of women in religious fold
 - eg) kautami included in Sangha
- 8) Filial Piety - Ashokan Dhamma.

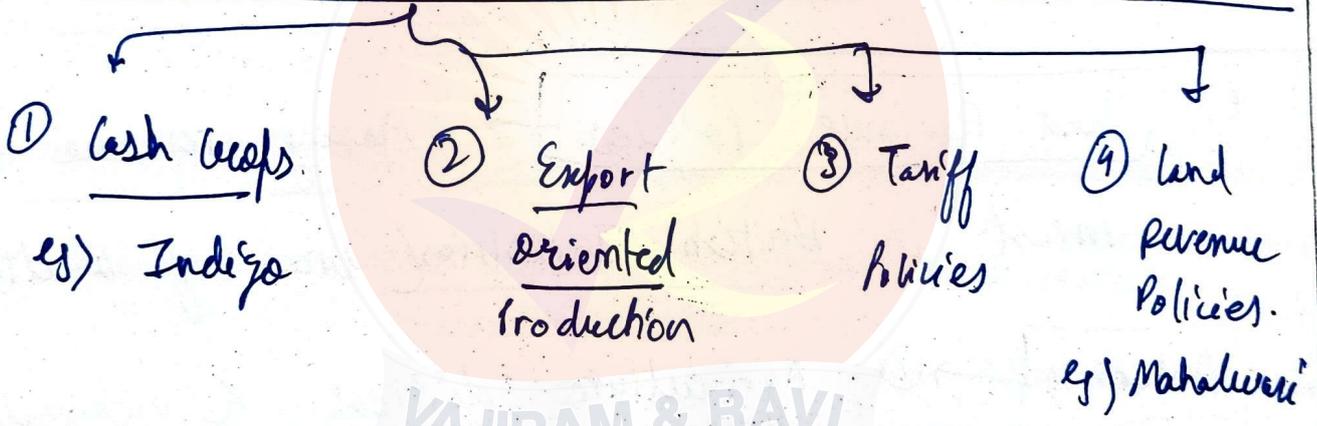

thus, 6th Century BCE was renaissance

in Indian history having future impacts as well.

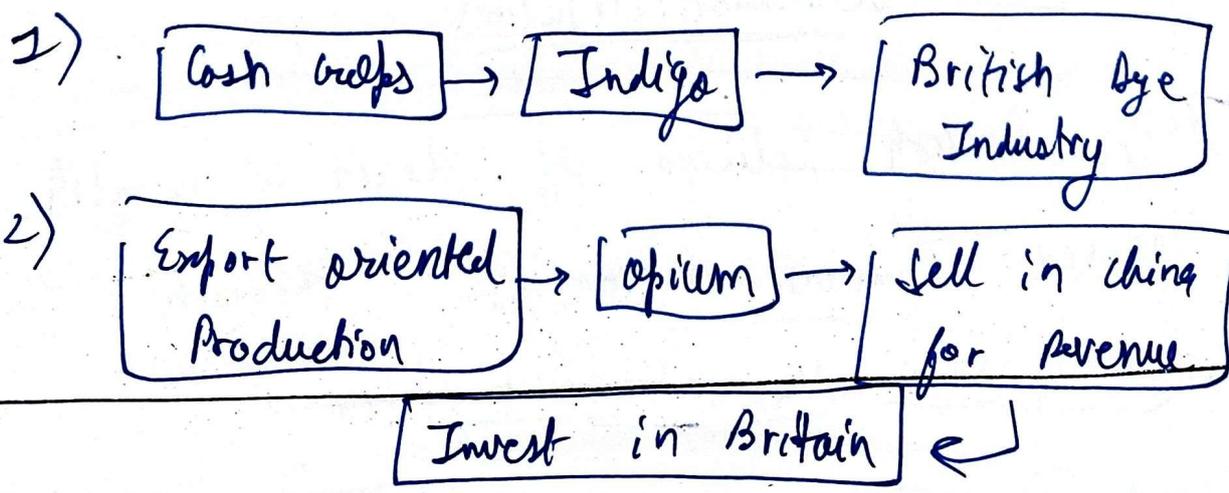

Q3

Britishers through their land, forest and communication expansionist policies reoriented the traditional economic structure suiting the Industrial needs of Britain.

Reorientation of Traditional Economic Structure :-

Suiting British Industrial Needs

3

Tariff Policies

low tariff on imports

Liverpool salt

Selling cheaper British goods
eg) machine made clothes.

4

High Tariff on Indian hand made goods

5

Devaluation of British Pound → making Industrial exports cheaper

6

Land Revenue Policies

→ Making revenue to Invest in British Industries (Drain of wealth)

Outcomes

1 Agriculture distress & vulnerability

2 Famines

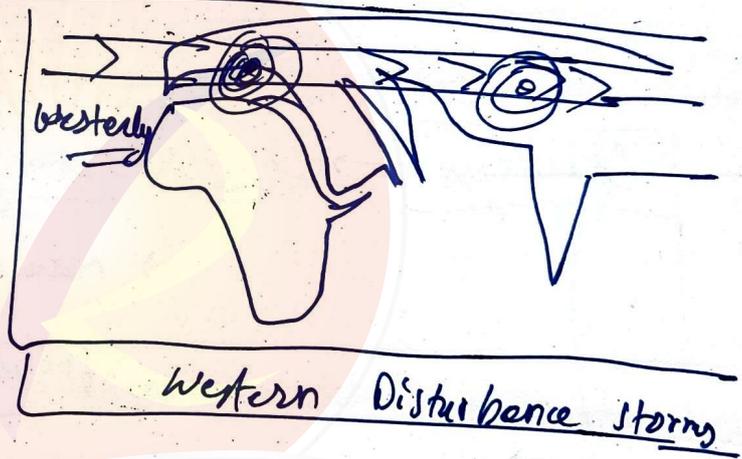

3 De industrialization

Thus, British policies of drain of wealth ignited Indian Nationalism through

Dada Bhai Naoroji's Efforts.

Western disturbances are winter - temperate cyclones generated over Mediterranean region & ~~travel~~ travel to India by 'riding' on westerlies, hence are called Western Disturbances.

Influence on Weather Patterns:-

1) Winter Rainfall over Northwest

2) Rabi crops gets moisture from it

3) Snowfall over Himalayan states

4) Ensure water through ephemeral streams recharge

(8)

4) Fog over Gangetic Plains

eg> Delhi Winter Fog.

5) Moisture & humidity rise in November

- January

6) Temperature Inversion & resulting

high smog & pollution levels.

Challenges

① Weakening westerlies (Climate Change)

↳ reducing western disturbance frequency

② Water Scarcity in Himalayan States.

③ Disruption in winter sports

Thus we need better rain rainwater

harvesting through Jal Shakti Abhiyan

catch the rain & Adaptation framework.

Q5

Peninsular with its diverse topography, hold 500 GW+ Solar energy & 200+ GW of wind energy, along with other non-conventional energy sources.

Non-Conventional Energy Sources of Peninsular India

1) Solar Energy Potential:-

⇒ Rooftop solar potential
~ 20 GW

Energy Potential

⇒ Floating solar e.g) Ramagundam NTPC solar

⇒ Hybrid Solar Plants ← wind
CBS.

2) Wind Energy Potential → ① 200+ GW of offshore wind potential at 120m height

2) High onshore Potential in Tamil Nadu

3) Ocean & wave energy → Karnataka coast

4) Tidal Energy Potential → Durgaduani Tidal Plant

5) Geothermal Energy - ex) Western Ghats

6) High sugarcane & agricultural waste

Production → CBH plants in National Green Energy Corridor

Way Forward → ① PM Surya Khas Muft Bijli expansion

→ ② Skilling → Surya Mitra

→ ③ Vertical solar + Innovative storage

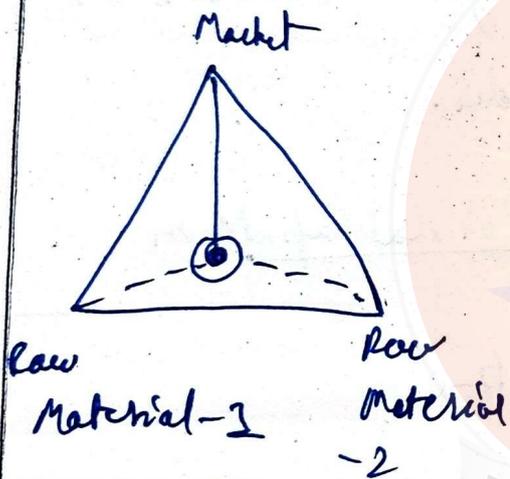

→ ④ Battery storage (Solid state, Sodium)

development can help achieve 500 GW

renewable energy target

Q.6

Iron & steel Energy Plants are located in eastern part of India based on Alfred Weber's least cost production location model.

→ Weight losing Industry → close to Raw material

Factors affecting location of Iron & Steel Plants

1) Primary - Raw material location

eg) Sundergarh Iron Mine

2) Power → Nearby Damodar valley Hydro plants

eg) Raithan, Talaiya etc

3) Labour availability

↳ ~~low~~ low skill → presence of ITIs

4) Industry - Academic
Linkaged } → Tata - IIT Kharagpur
Collaboration &
technology R&D

5) Market Proximity → Jamshedpur & other
markets

6) Transport → Dedicated freight corridors in
in eastern India.
↳ Ports → Paradeep & Vishakhapatnam
⇓
Exports

7) Also favourable Government policies.

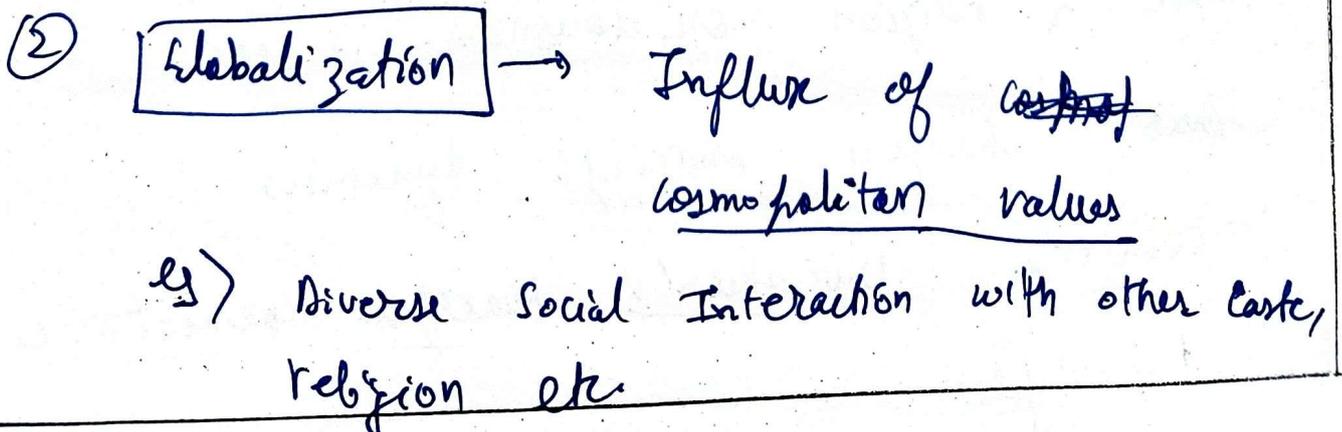

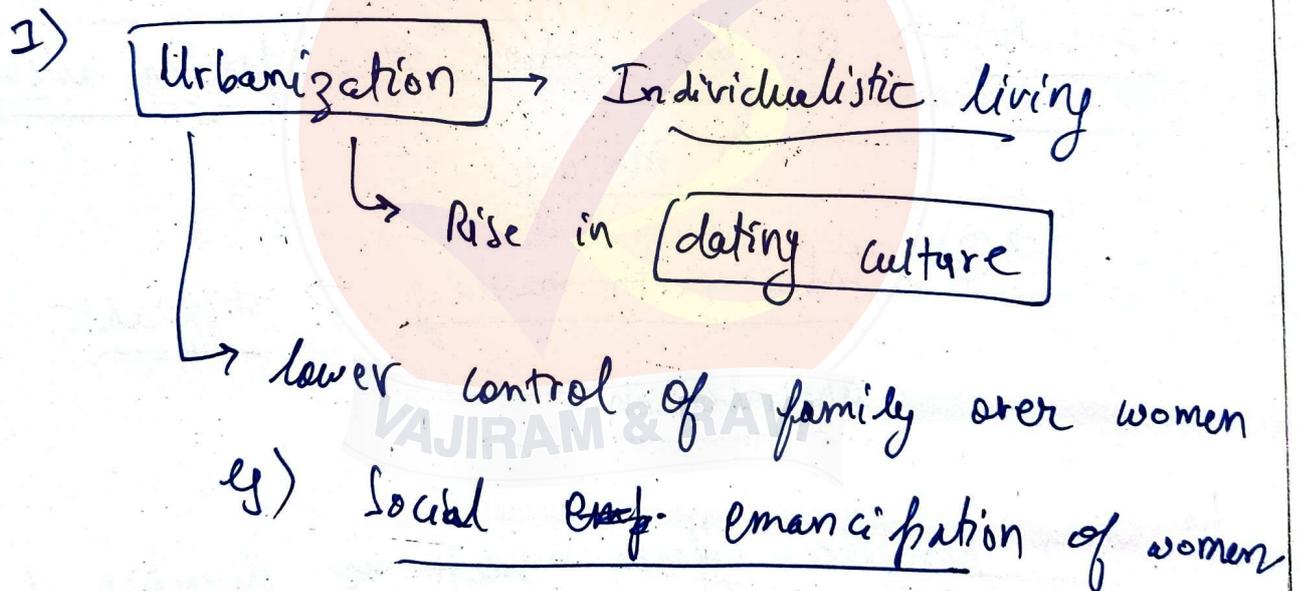

8) MMR amendment & lease of
mining leases etc.

Thus, we need to address Environmental &
social challenges through environmental
impact assessment & green technology.

97

Marriages in India transformed with rising urbanization & globalization which had profound effect on family dynamics.

Social Forces behind changing marriage patterns

→ Rising tolerance & homogenization of values.

Digitalization → online meetings & dating apps.

Economic forces → ① lower dependence on family for finances.

↳ ② Economic imperative to live alone.

Impact → ① loss notion of "family alliance" in marriage.

↳ ② Inter-faith marriage → difficult assimilation.

However, positive effects such as dilution of caste & religion consciousness. is seen.

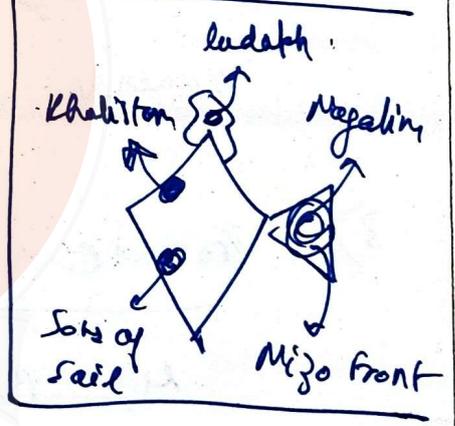

Thus, changing marriage dynamics reinforce Durkheim's peaceful coexistence principle.

Q8

As per Myron Weiner, regionalism refers to greater connection, affection and pride in one's region over nation leading to promotion of narrow interests

Regionalism contributing to decentralization

- 1) Greater voice to ethnic communities
 - es) 6th Schedule areas → Bode Autonomous Council

- 2) Cultural preservation through decentralization
 - es) Punjabi Suba movement
- 3) Culture - appropriate governance es) Herkhoband movement

4) Decentralized economic development

eg) 5th schedule tribal areas.

However, there are limitations as well:-

1) Greater demands => eg) Ladakh 6th schedule implementation demand.

2) ~~Inability~~ ^{cannot} to fulfil secessionist demands. eg) Nagaland & Khalistan

3) Promote linguistic chauvinism

eg) Bengal

Way forward

→ ① fulfil limited demands (Boruah committee)

→ ② North east development (PM Dev/NE)
→ Capacity Building

Can ensure principle of "Ek Bharat Shreshth Bharat"

Q9
Recent demands of Caste Census have reignited debates on Social Justice which is part of Basic Structure of Constitution as per Randhir Singh Case.

Positive Impact of Caste Census.

Social

- 1) Promote rationalization of reservation policies
- 2) Directed welfare policies
- 3) Applying creamy layer
- 4) Data driven decision making & policies.

Political

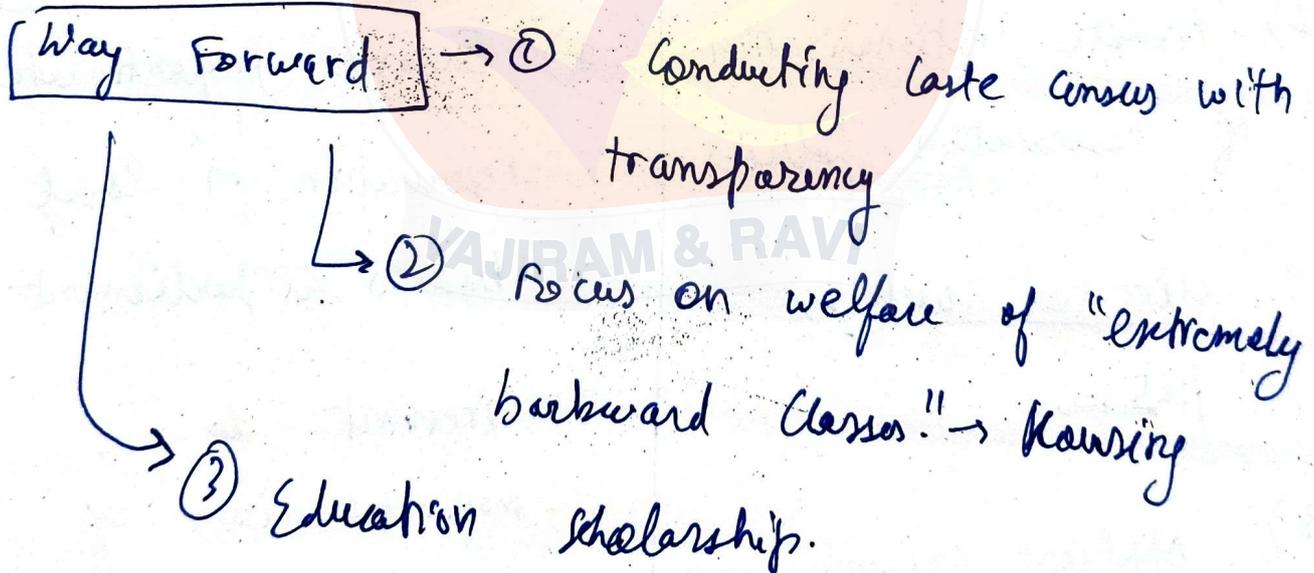

- 1) Ensure proportionate reservation in local bodies & parliament
- 2) Prevent majoritarianism of dominant castes
- 3) Governance reforms

Social

↳ Prevent Intra-generational inequity

Negative Impacts of Caste Census

- 1) Fuel Caste consciousness & race to the bottom.
- 2) Vote Bank & Identity Politics
- 3) Enmity & hate speeches

Thus, as per Rohini Commission, India must move towards creamy layer & subcategorization of Castes.

Lucknow Pact of 1916 was watershed moment in Indian freedom struggle reconciling not just parties but also two communities as well.

Lucknow Pact 1916 promoting Hindu Muslim Unity:-

- 1) Beginning Gandhian Secular Politics
- 2) cooperation & united front in non cooperation movement.
 - g) Ali Brothers.
- 3) Large scale Muslim participation — not seen earlier, nor later
- 4) Muslim league support for Congress.

However, it was also harbinger of communal divisions as well:

- 1) Conflict over separate electorates
eg) Round table conferences
- 2) Divergence between Congress & Muslim League over Mehru report led to ~~begin~~ beginning of Muslim Identity politics.
- 3) Beginning of Pakistan Movement after Lahore session → Increase in communalism
- 4) Direct Action Action Day - 16 August 1946
→ Peak communal violence due to divergent interests

Thus, 1916 Lucknow Pact forged short-term unity but ultimately culminated in partition of India.

Q

(11)

Bhakti movement emerged in India in 7th century with rise of Shankaracharya and Advaita Vedanta along with Alvars & Nayanmars.

Sufism emerged in India in 12th century with the arrival of Slave dynasty and Moinuddin Chisti

Convergence between Sufism & Bhakti movement

Devotion

- 2) Preached personal love for god.
- 2) Rejected Priestly dominance.
- 3) Emphasis on spiritual connection over ritual

Dissent

- 1) Preached against Brahminical & Ulama based orthodoxy
- 2) Against Communal divides
- 3) Preached inclusivity of all.

Socio-political Significance of Bhakti & Sufi

Social :-

- 1) Promoted oneness & equality of all
eg) 'Luth-i-kell' of Sufism.
- 2) Emanicipation & religious access for lower caste & eg) Manikava chakar
- 3) Inclusion of women in education & religious practices eg) Alwar - Andal
- 4) Promoted social welfare & ethical practices
eg) Khidmat - i - khaleq in Sufism
- 5) Development of Vernacular languages
eg) Basavanna → Kannada.
Surdas → Braj

Political

- ① Tolerance in kings → Alber
- ② → Art & Culture Patronage

4) Chalukya for education & Nataraja bronze works.

Challenges & limitations

1) Did not attacked institution like Ulama & Brahmin.

2) Symbolic fight against caste

3) Persistence of social & class divisions
4) Untouchability abolished after Independence.

4) Limited impact on Kings
Execution of Guru Teg Bahadur by Aurangzeb
Expulsion of Vaishnava by Kulothunga

Thus, Bhakti & Sufi movements were

forerunners of modern reforms by Raja Ram Mohan Roy in 18th century

9/12

Sardar Patel & JL Nehru had diametrically ~~opposite~~ opposite approaches, but was rooted in imagination of United India.

Contrasting ~~App~~ Approaches of Sardar Patel & Nehru.

Context	Sardar Patel	Nehru
1) Philosophy	<u>Realpolitik</u> with ethics.	<u>Idealism</u>
2) <u>Methods</u>	<u>Negotiation</u> ; <u>Incentives</u>	People participation
3) <u>Force / Pressure</u>	<u>Police Action</u> against Hyderabad	no force applied
4) Vision	complete Integration	<u>People's choice</u>

Evolution of Indian Union

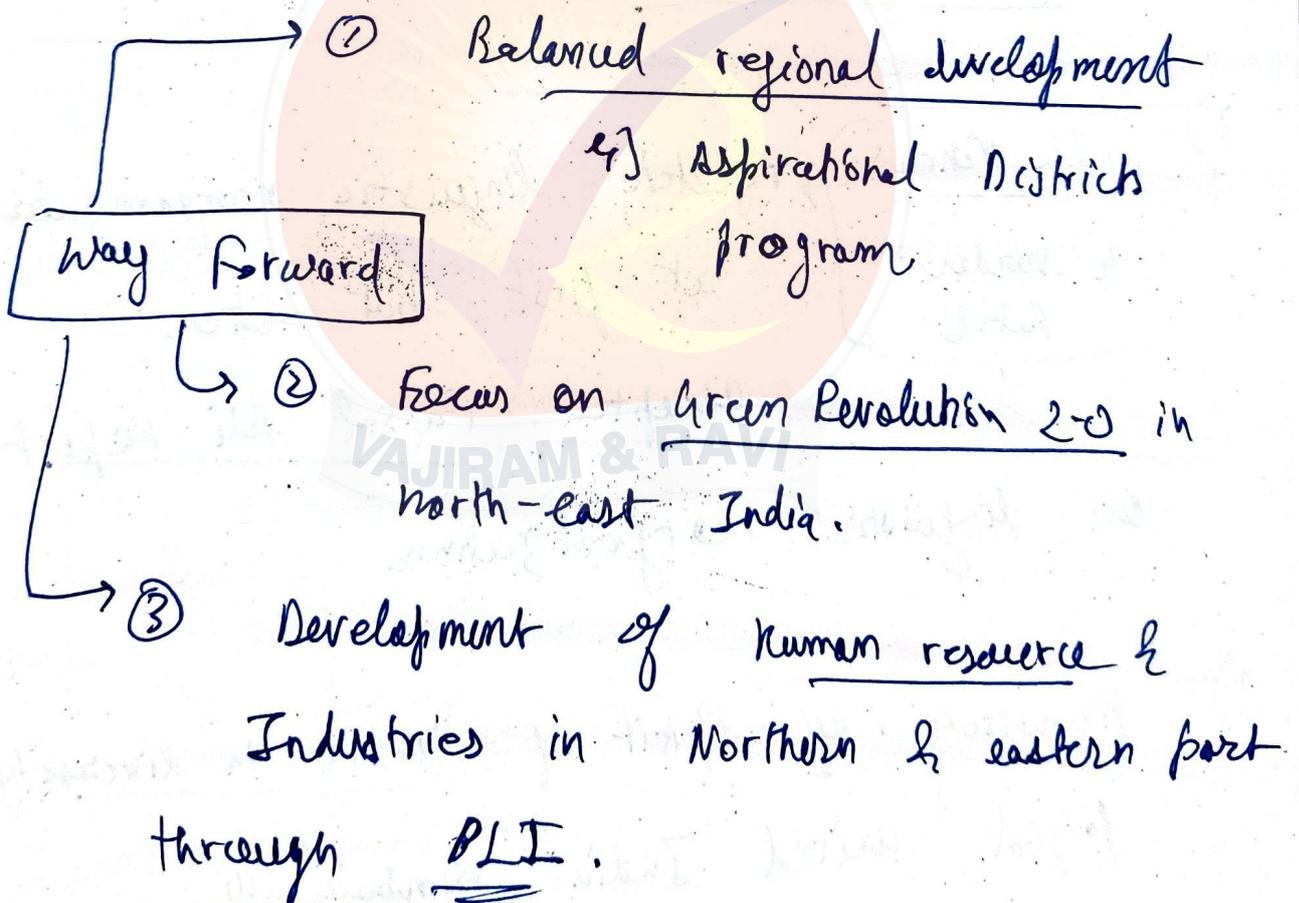

- 1) Nehru's decision for plebiscite in Kashmir led to Special Status due to attack by Pakistan caused by delay
- 2) Sardar Patel Integrated 500+ small & large Union territories.
- 3)

JL Nehru & Sardar Patel

 → rejected linguistic reorganization at first but later accepted Faisal Ali Report on linguistic reorganization.
- 4) Promotion of spirit of 'Unity in diversity' forged united India symbolically
- 5) However, challenges like Maoism

Punjabi Suba movement (later Khalistan) and north east insurgency continued.

6) However, Democratic decentralization envisioned by Nehru through 5th & 6th schedule forged unity & fulfilled regional aspirations.

Thus, above measures can help achieve

vision of Viksit Bharat @ 47

Q13

American Civil War fought during last quarter of 19th century was not just battle of independence but battle of economic ideologies of liberty & mercantilism

American Civil War as Political clash :-

- ① Against unjust tax/laws without representation
- ② Against colonialism
- ③ Right to self governance

However, American Civil War goes beyond & present clash of divergent economic system.

1) Pushed back exploitative colonial economic policies eg) Navigation Act.

- 2) Defining American system of liberty
- 2) Against unjust & ~~excessive~~ excessive taxation
 eg) Sugar Act, Stamp Act
- ↳ Represent American representative economic philosophy
- 3) Against British restriction of export of goods
 eg) Iron
- Highlight American philosophy of ~~laissez~~ laissez faire
- 4) Against British exploitative Industrial lobby
 ⇒ Depict ~~with~~ equal economic opportunities for all & Justice.
- ⇒ Push back against British slave trade

→ Highlight American humanitarism policies.

American Civil War → Divergent system

- 1) Industrialization v/s Agrarian Economy
- 2) Equal opportunities v/s Slave & tied labour (Bonded)
- 3) Humanitarian v/s Exploitative
- 4) Evolutionary economy v/s status quoist Economy of South

Thus, American civil war was not just war but humanitarian & economic philosophical wars.

19/4

Marine Heat waves refers to abnormal rise in sea-surface temperature (SST) for short span of time. Eg) SST above 3-4°C above long-term average.

Causes of Marine Heat waves.

- 1) Rising Green House Gases \Rightarrow Rise in global warming \rightarrow oceanic warming by conduction
- 2) Absorption of CO₂ by oceans leading to temperature rise
- 3) ENSO & La Niña \Rightarrow temporary warming of oceans eg) El Niño warms eastern Pacific ocean.

→ Impact of Galapagos

4) Discharge of warm water from coastal areas.

5) Topology ⇒ Enclosed Basins are warming faster. → Heatwaves.

6) Red-Sea & Persian Gulf.

Influence on onset of Summer Monsoon

2) Greater moisture availability

↳ Clausius - Clapeyron effect

2) Strengthening warm Somali Current reversal

⇒ Rise in humidity

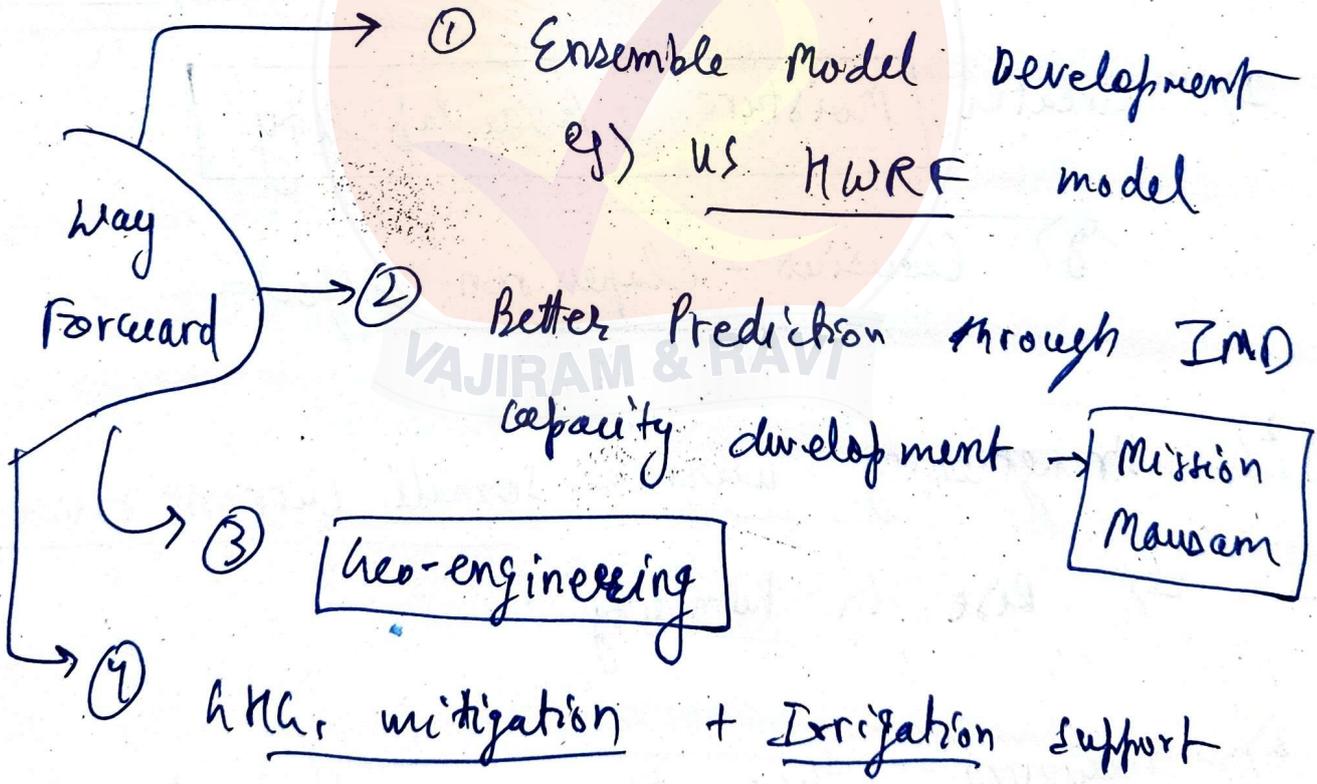

3) However, they decrease temperature
contrast ⇒ weakening monsoon winds.

4) Lowering Air Pressure over ocean.

→ convergence, instead of divergence

5) Greater aerosol load → Cloud formation & precipitation.

Thus, overall, marine heat waves intensify hydrological cycle but increase spatial variability due to weakened winds.

Therefore, we need Adaptation strategies, including Drip Irrigation under PM Kefy

Recently Budget 2024 launched tribal development initiatives to ensure holistic social, economic & political development of tribal regions.

Effectiveness of tribal development programs -

Success

Limitation

- | | |
|---|---|
| 1) <u>Infrastructure development</u> under PM JANMAN | 1) <u>Funding gaps</u> & lack of consultation |
| 2) Education through Eksharya Model Schools | 2) Lack of Trained teachers |
| 3) <u>Communication development</u> through <u>Satellite Mobile</u> | 3) <u>Inadequate</u> technology uptake |
| 4) Forest Rights & Integrated development | 4) Delays & Rejections. |

g) FRA; Community Forest Rights

⇒ Health infrastructure

↳ Mobile Medical Units

↳ JAK - Uurat
Uram Abhiyan

⇒ Mistrust & cultural barriers.

Tribal areas face setbacks because !-

1) Lack of connectivity with ~~the~~ urban areas

2) Primitive nature of living & lack of technological skills. ⇒ Digital Divide

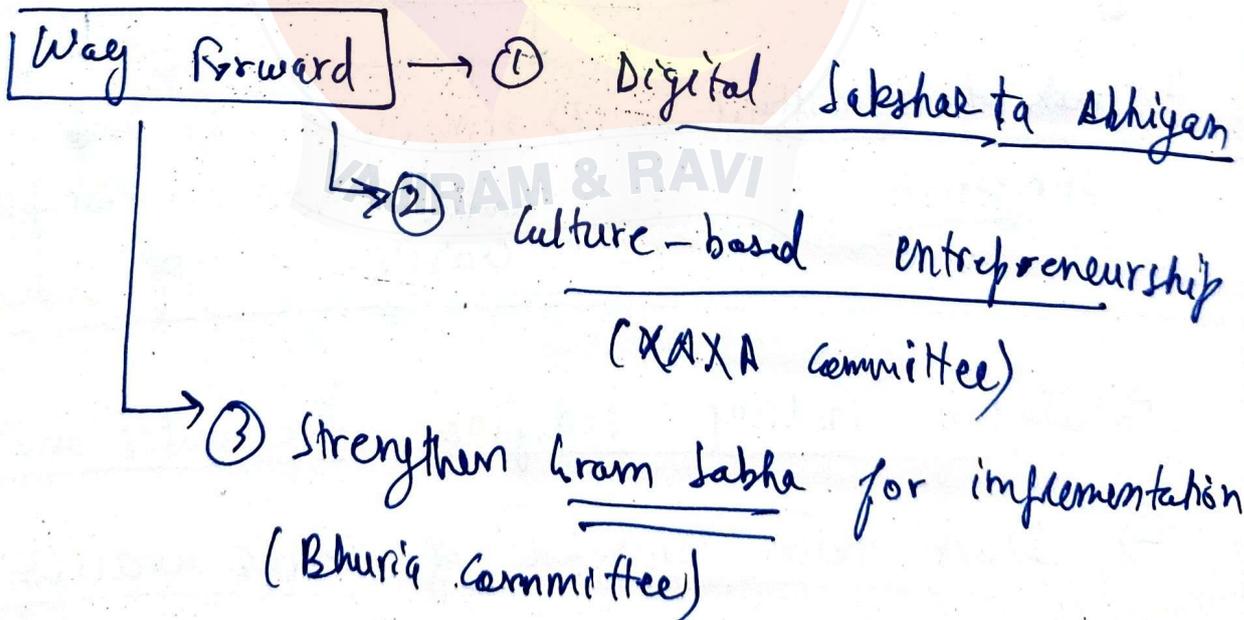

3) Language Barriers → Hinder skilling
↳ Jobs demand Hindi/English

4) Inadequate entrepreneurship training

5) Displacement induced by development

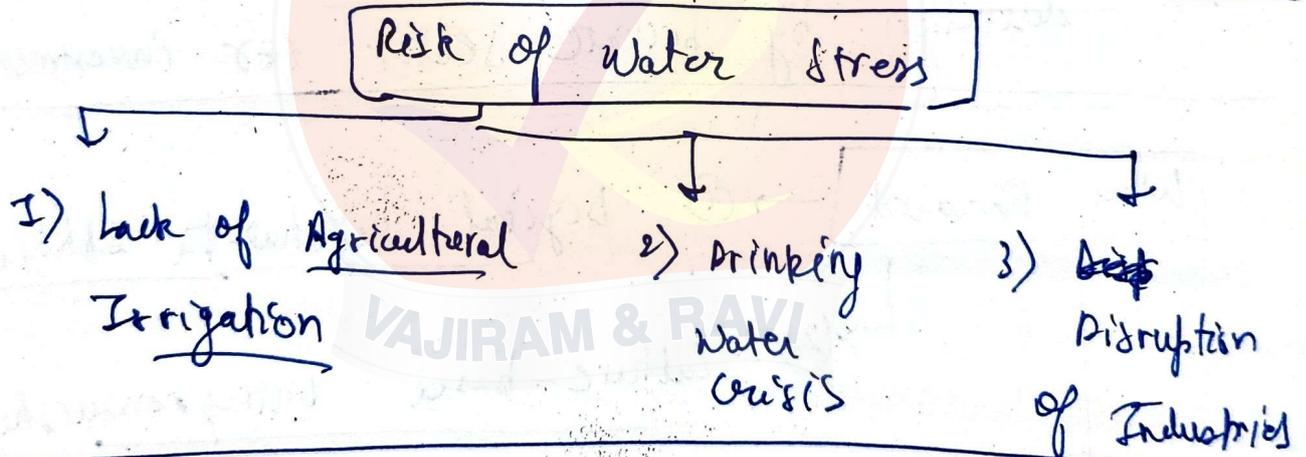

Challenges Faced by Development Initiatives

- 1) Inadequate Disaggregated Data
- 2) lack of focus on culture-based livelihood promotion
- 3) Language-based disconnect
- 4) Inadequate local governance under PEFA.
- 5) hesitation by private sector for investment

Thus, TRIFED based skilling & export promotion must be promoted.

Q/16
Himalayan Hindu Kush region is called 'water tower' of Asia, however, as per ICE-MOD, 80% of Himalayan glaciers could be lost by 2100 if warming is above 2°C, endangering water security of 2 Billion people.

Himalayan Melting redefine Freshwater availability

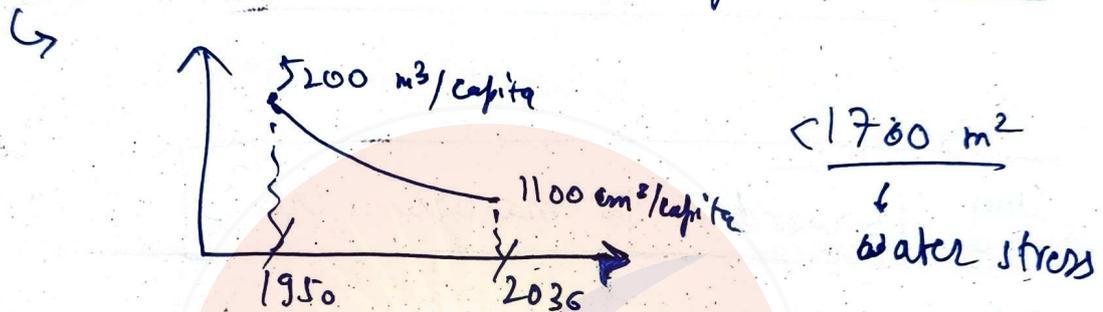

1) Short term increase of water availability until 2050.

2) Severe Water Crisis post 2050

3) Decline in Surface Irrigation

⇒ endanger 31% of ~~future~~ canal irrigated land in India.

4) Imminent 'Zero day' Challenges for South Asia

5) Lack of water for key industries in Ganges valley.

Challenges of Geo politics / Hydro politics in South Asian Region

1) Disruption in transboundary water sharing due to Damming by China e.g. Jarlung Tsampo Dam.

2) Flood-management & data sharing disputes.

- 3) Water division agreements required to address climate change
- 4) Joint glacial lake outburst management.
(51% increase in glacial lakes since 1990)

Way Forward to manage crisis

Availability

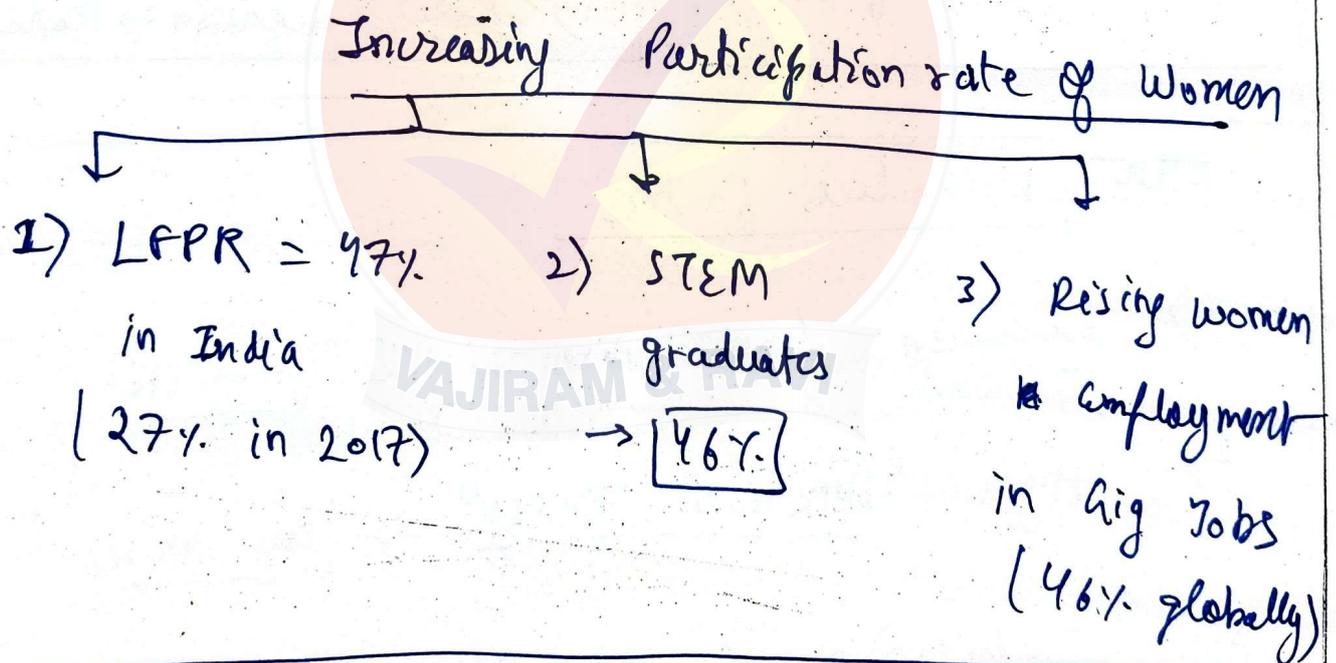

- 1) Rain water Harvesting
- 2) ISA - Catch the rain
- 3) Mithir Shah → water shed management
- 4) Ban on vehicular Traffic (Black carbon)

Hydro politics

- 1) Engagement through BIMSTEC & SCO
- 2) Water-data sharing frameworks.
- 3) Consensus based Dam Building.

Thus, we need to adopt Helsinki rules for equitable transboundary water sharing to ensure SDG-6 (WASH)

As per Forbes report 2024, only 9.6% of CEOs of Fortune 500 company are women, which reduces to 4.5% for India, raising issues of discrimination against women.

However, women representation in top leadership is in minimum

Societal Norms

Workplace Structures

(Societal)

40

(Workplace)

- 1) Barriers on mobility
- 2) Cultural orthodoxy in some religions
- 3) Dual Burden Syndrome
- 4) Women in unpaid care works spend 300 min. v/s 88 minutes of men.

- 1) Glass-ceiling effect
↳ discrimination in promotion
- 2) Old-boys Networks
↳ exclusion from social networks
- 3) Gendered Stereotypes on leadership.
- 4) lower Retention → Harassment

Other Workplace factors :-

- 1) Exclusion from high-profile projects
- 2) High "Attrition rates" ⇒ low wages
- 3) Exploitation of women → Anna Sebastian Suicide
- 4) High Jobs → limited promotion options
- 5) Safety concerns
- 6) Marriage related barriers.

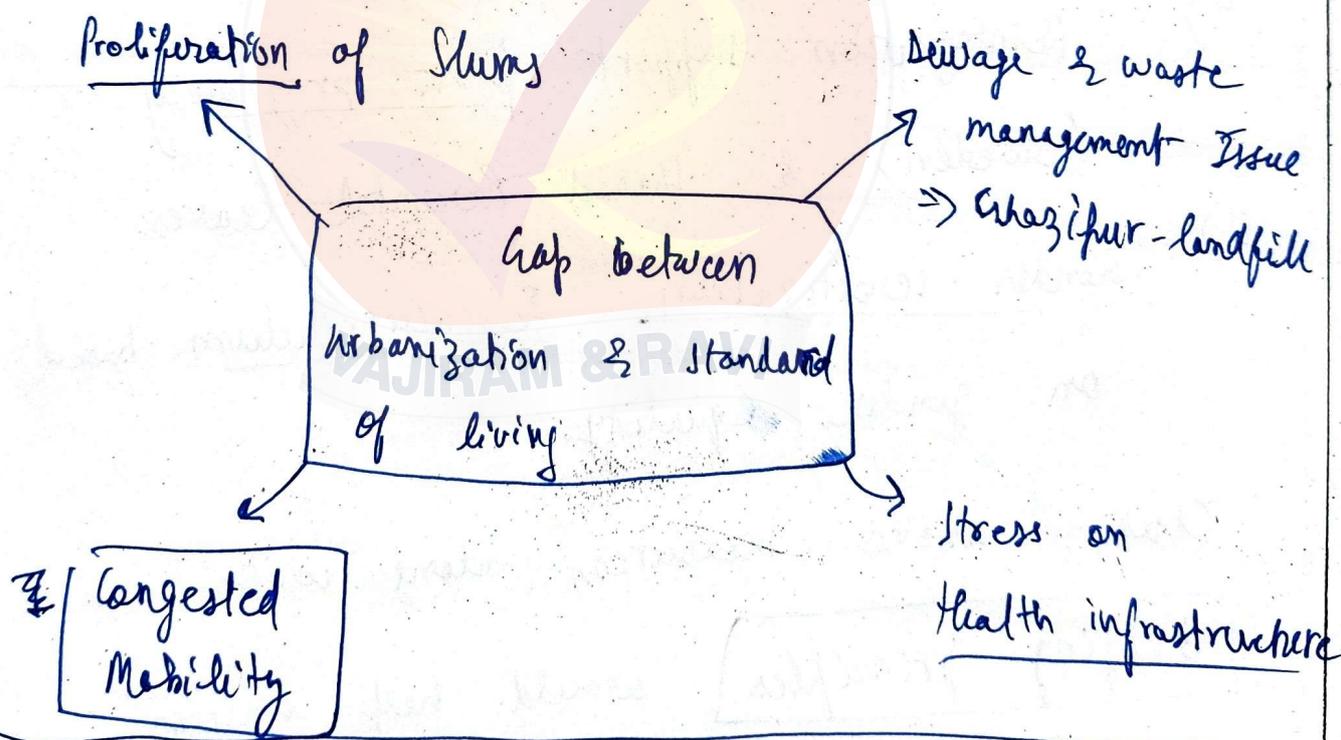

Way forward to Increase Women's Participation ~~to~~ in leadership positions

- 1) Fair wages & regular increments
- 2) Fair performance appraisals.
- 3) Independent employment tribunals
(Verma Committee) → POSH Act
- 4) Reintegration support post pregnancy
(Sweden) & shared parental leaves.
- 5) Gender-sensitization & curriculum based on gender-equality.

Thus above measures, along with Beijing principles would help ensure achievement of SDG-5 - women equality

Q 18
13)

As per recent pollution surveys, 82/100 top polluted cities are in India, while World bank iterates that \$ 1.3 trillion investment would be required to prevent phenomenon of 'livability atrophy' in India.

Causes of Livability atrophy

1) Excessive Rural to Urban migration

- 1) Niti Aayog estimate 49% of Indian population will live in cities by 2050.
- 2) Inadequate Rural - industrialization and services
- 3) Low investment in urban development
- 4) Lack of Master plans and public consultation
- 5) Weak urban public transport
- ↳ lack of last mile connectivity
 - ↳ lack PwD friendliness
 - ↳ lack women safety

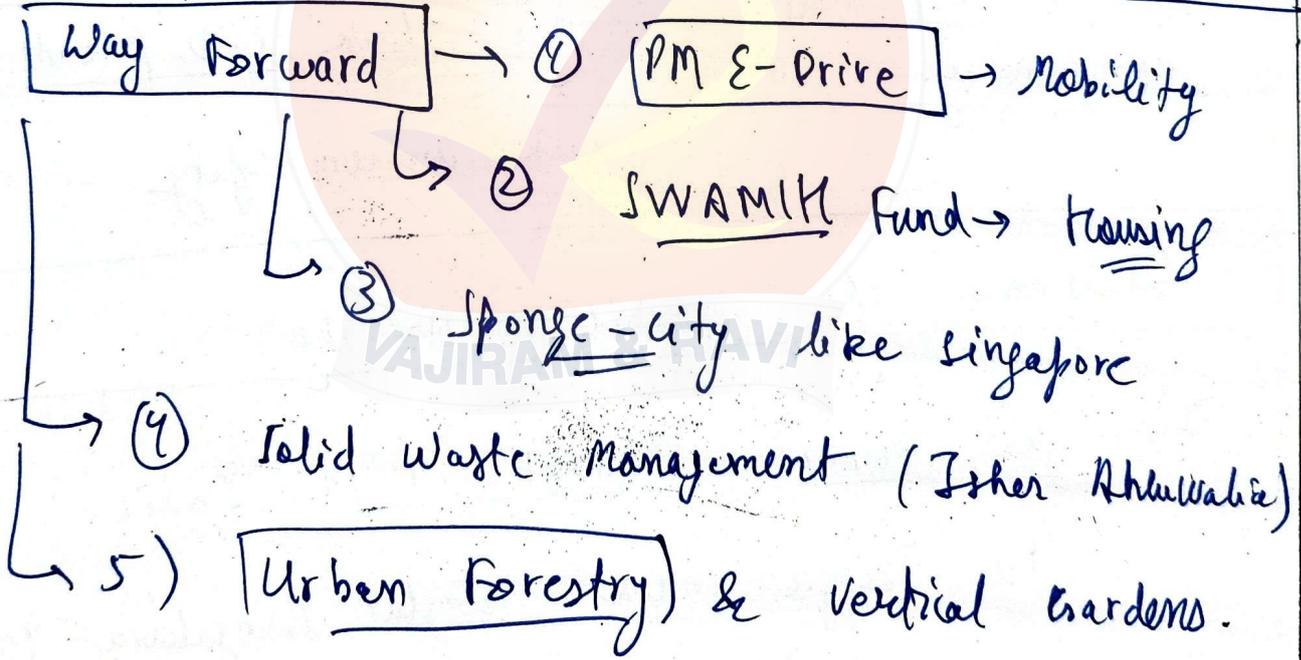

Consequences of Livability Atrophy

- 1) Low private Investment in India.
- eg) Traffic index - ~~Bangalore~~ Bengaluru - 40 min
- 2) Hinder access to public services like Health Beds → $\boxed{1.3/1000}$ population v/s WHO → $\boxed{3/1000}$

3) Rise in pollution → 8.8 million premature deaths ⇒ Lancet - 2022 study

4) Proliferation of diseases due to slums & lack of WASH facilities.
⇒ Reduce GDP by 6% annually

5) Environmental degradation { Floodplain encroachment
y) Yamuna in Delhi

we need to enhance our local & governance for effective implementation of above

measures → e-governance

Q19

Transnationalism, as per Anthony Giddens, refers to greater interconnectedness of diverse & distant societies due to economic or technological integration and immigration.

Factors leading to global interconnectedness

A Technological Factors.

① ⇒ online diaspora groups.

② ⇒ Digital solidarity eg) # Black lives matter.

B Social :-

1) Cultural Festivals attended by diverse groups.

2) Linguistic connect → "Cultural Proximity theory"

3) Inter-diaspora marriages ex) Samia ~~Mirza~~ Mirza
& Sohail Khan

(c) Other factors

1) Solidarity due to disconnection from
homeland - geo political issues.

2) South-Asian Transnationalism

Implications of Transnationalism

1) Composite-Regional culture development

2) opportunities for track-II diplomacy

3) India-Cultural Council by embassy

4) Greater economic links & promotion
of free trade agreements

5) Promotion of traditional spiritual/cultural

values eg) International yoga day.

However, **Challenges** are there:-

- 1) Lack of Institutionalization of diaspora networks.
- 2) Impact of domestic geopolitics
 - eg) of indoor divided south Asian diaspora
- 3) Lack of intra-diaspora networking & increasing rivalry
 - eg) Khalistan v/s Kashmiri fights in Australia.
- 4) **Racism** among diaspora communities

Thus, we need people-to-people ties among diaspora communities & institutionalize cultural-councils to ensure transnationalism

Q/20

As per TN Madan, Communalism Refers to greater ~~the~~ attraction to our ethnic or religious community & belief in its superiority leading to social or political conflicts.

Communalism in India is rooted in:-

- History** :-
- 1) **British policy** of divide & rule
 - 2) **Partition Woes** & philosophy of 2-nations

Social Issues :-

- 1) Perruption of socio-political deprivation.
- 2) No Minister from Muslim community
- 2) Divergent views on personal laws & uniform civil codes.

3) Hate-speeches and identity politics.

Economic Deprivations

1) Divergence in Gross-enrollment ratio of Muslims & Hindus in higher education.

Hindu	29%
Muslim	21%

2) Sachar Committee highlighted economic backwardness of minorities.

Consequences of Communalism

1) Social Cohesion issues:-

(a) => Mob lynchings (Tehseen Poonawala case)

(b) => Riots & conflicts (eg) Murshidabad & Delhi

2) National Integration Challenges.

(a) => Exploitation by external extremist groups

eg > ISIS

(b) Greater divergence in vision of "Ek Bharat
Shreshth Bharat"

(c) Fragmentation of politics eg > ~~Majoritarian~~
Majoritarianism

Moving forward, we must ensure cohesion:-

1) Curb Hate speeches → TK Vishwanatham Committee

2) Affirmative Action → Scholarships & funding

3) Minority culture Protection (Article 29, 30)

4) Entrepreneurship promotion (Skill & Stand-Up
India, PSL loans)

Thus, as per PM Modi :- "we are diverse
Indians forming beautiful Rage"
