SURE SHOT TEST SERIES FLT 2024

## GENERAL STUDIES

Full Length Test

Test - 1 (GS1 CT)

Time allowed: Three Hours

Maximum Marks: 250

ADMIN. NO.: 2 4 V R B 1 7 9 7

NAME: SANJAY KUMAR

MOBILE NO.:

EMAIL.:

SUBMISSION DATE:

UPSE CSE 2025

AIR - 502

7.00-9.54

### QUESTION PAPER SPECIFIC INSTRUCTIONS

**Please read each of the following instructions carefully before attempting questions:**

There are **TWENTY** questions printed in **ENGLISH**. All the questions are compulsory.

The number of marks carried by a question/ part is indicated against it. Word limit in questions, wherever specified, should be adhered to. Any page or portion of the page left blank in the Question-cum-Answer Booklet must be clearly struck off.

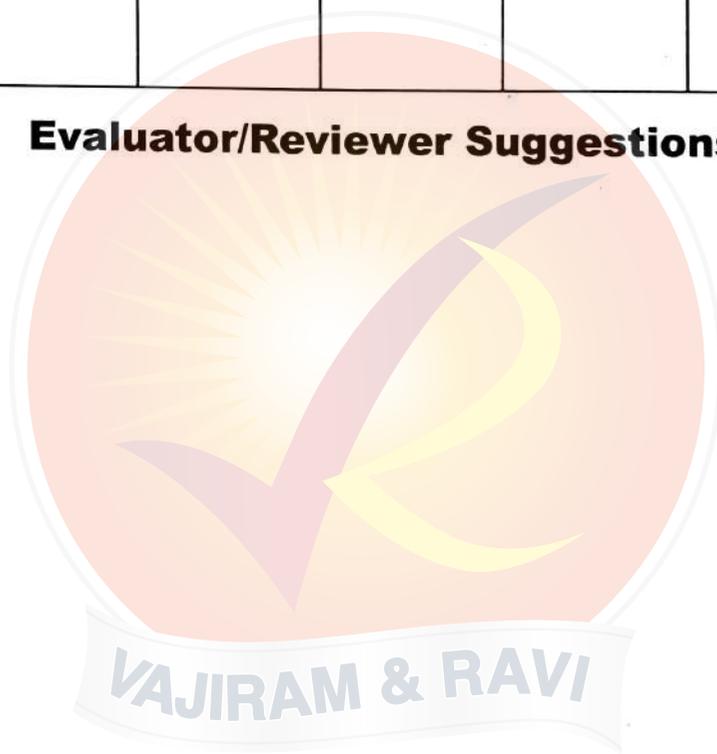

Q No.	Marks	Q No.	Marks	Q No.	Marks
Q1	/10	Q8	/10	Q15	/15
Q2	/10	Q9	/10	Q16	/15
Q3	/10	Q10	/10	Q17	/15
Q4	/10	Q11	/15	Q18	/15
Q5	/10	Q12	/15	Q19	/15
Q6	/10	Q13	/15	Q20	/15
Q7	/10	Q14	/15	Total	/250

### Follow these steps to avail the facility of mentoring –

1. Go through the soft copy of your evaluated answer sheet and analyse all the comments and suggestions given.
2. Call 9717565805 between 11:00 am to 5:00 pm to fix your mentoring slot.
3. Please follow the mentoring appointment timings properly.

Parameters	Excellent	Very Good	Good	Average	Poor	Very Poor
Language and Articulation						
Structure and Presentation						
Conceptual clarity and Content						
Number of Attempted questions						

### Evaluator/Reviewer Suggestions

**VAJIRAM & RAVI**

(Answer questions in NOT MORE than the word limit specified for each in the parenthesis. Content of the answer is more important than its length.)

1. 'Cave paintings are the window into the aesthetic sensitivity and creativeness of ancient humans.' Discuss the statement with reference to ancient Indian cave paintings. (10 marks, 150 words)

Cave paintings in India evolved with society, which showed the daily life, Religion etc of the past lives (eg) Bhimbetka Caves Chhattrg

Cave painting window to Aesthetic Sensitivity

- ① Different type of scene depicted with different colors.  
(eg) Bhimbetka - Red color
- ② Appended to different religion stories  
(eg) Ellora Caves - 3 Religion Hindu, Buddhism Jainism depicted →
- ③ Design & geometry figures & floral designs (eg) Bagh Cave painting
- ④ Motifs & designery with help of funds from traders (eg) Tajimara Caves  
↳ Udayagiri cave paintings.

Cave painting show creedness of human

- ① diff type of technology was used in
  - Fresco paintings → with help of wet plaster
  - Petroglyphs (stone paintings in ancient time also shown)
  - Mural paintings → diff types designs in walls

② different type of forms of human Representation  
 ↳ geometric figures  
 ↳ real humans

③ use of mural design, intricate carving shows level of technology used.

ancient art & architecture shows

the creativity of ancient people depicting their way of life

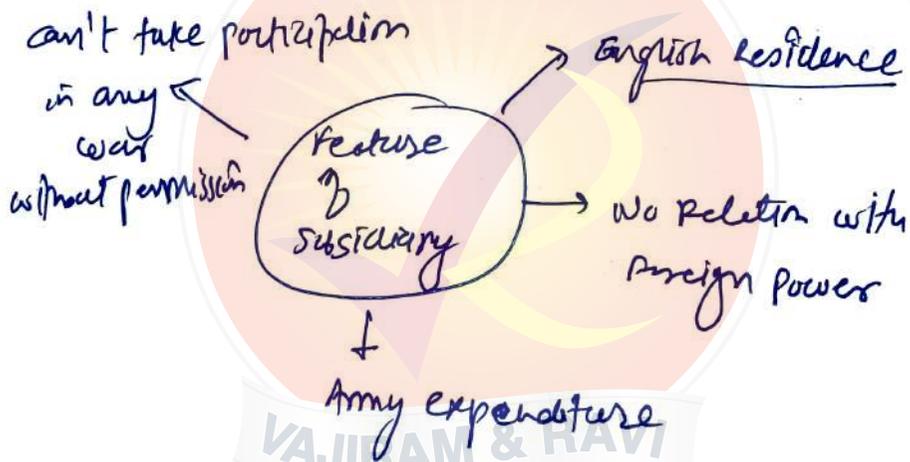

Students should not write anything inside the box

2. Evaluate the role of subsidiary alliance policy in turning 'the British Empire in India' into 'the British Empire of India'. (10 marks, 150 words)

Subsidiary Alliance is policy started by Lord Wellesley in 1798. It helped India being a trade partner + fully a colony of British empire.

Role of subsidiary Alliance in turning British empire into India to British Empire of India

① The very feature of subsidiary alliance lead to Loss of Autonomy

(eg) Mysore 1798.

② Most state lost their right to rule independently & losing foreign Relations

- ③ led to expansion throughout India
  - eg) Maratha (1803, 1818)
- ④ Military expenditure → state had to pay for the security of state
- eg) Ruled on their own fund basis
- ⑤ Trade relation stopped → Ruler can sell commodity to British if these are demanded.

Although Puplex started the policy, subsidiary alliance under wellwisher led to undermining of India's sovereignty & led to COLONISATION.

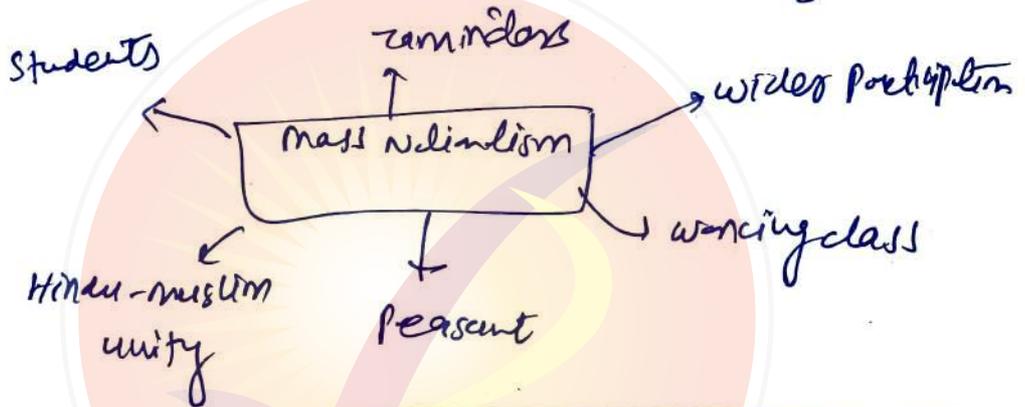

Students should not write anything inside the box

Marks:	

3. Mass nationalism was a watershed in the Indian freedom struggle towards independence. How did the Indian Business community react to it? Discuss. (10 marks, 150 words)

Mass Nationalism is process of uniting various stratas toward a common goal & directing energy in defeating single enemy.

(eg) Post Gandhian phase specially

Mass nationalism was watershed in freedom

- ① led to National unity consciousness among mass.
- ② Awakening toward real cause of their poverty & exploitation (eg) Drain theory (Rc Pitt)
- ③ United by common enemy (eg) Peasant, Tribal, civilian → all British enemy

(4) decline in fear of Almighty after Gandhi?

Reaction of Business Community towards mass Nationalism

1) Earlier before Swadeshi → They did not support movement fully because, dependent on British Capital & technology.

2) During Swadeshi → Economic Boycott benefitted small industries, so support from small businessmen came.

3) During Gandhian phase → Businessman community helped in funding, and supported because they need favorable policy (post world war I) from Indian government.

4) 1942 movement - divided support

~~Business~~ Business Community support depended upon their interest throughout struggle.

4. Do you agree that non-alignment adopted after independence formed the bed-rock of Indian Foreign policy. Substantiate. (10 marks, 150 words)

Non-Alignment was policy adopted under Nehru to guide India during Cold war to avoid joining any block & practicing Independent foreign policy

(eg) Decision on Korean war.

NAM policy helped Indian foreign policy

- ① Navigating through Cold war politics → It helped India to get best, maintaining good relationship with both west & east.
- ② NAM helped to navigate Western hegemony  
↳ USSR helped India post dependence from defence technology to critical support in wars.
- ③ NAM also helped in Independent foreign policy  
(eg) → criticized Vietnam war

④ Decolonization process - Under NAM Policy, India was 1st to criticize and boycott South Africa white government  
 ↳ ultimately freedom in 1992.

⑤ Today Voice of Global South → mainly because of Cold war leadership & NAM

however NAM Relevance can be questioned →

① End of Cold war occurred after USSR decline in 1990s.

② Idealistic policy no more work today, Multialignment is key today.

③ Being voice of Global South, interest & vulnerable nations should be put

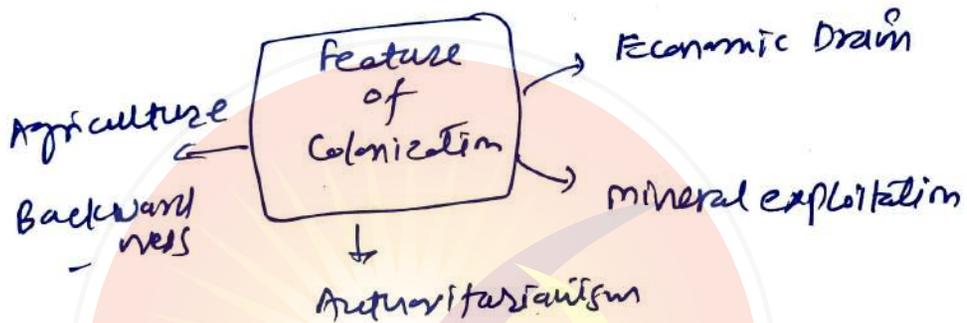

NAM as a policy helped navigation throughout last 75 years. Still it is helpful to avoid the confrontation between West & East

5. Colonial legacy is the primary source of political instability in the African Continent. Examine. (10 marks, 150 words)

Colonisation of world led to various issues in diff continents → Be it political instability, war, famine, hunger.

Colonial legacy Cause of Political Instability

① Paper Partition → This led behind an endless war, because most partition of Africa took place in Conference table. (No Clear Boundary)

② Resource exploitation → It led to under-development of African nation, raw material extracted, but no investment in civilians, (eg) Angola war

- ③ Authoritarianism tendency led to lack of democracy in most countries.
- ④ Arms struggle British in exchange of resource minerals & land, gave arms to local warlords → factionalism & civil war (eg) RSF in Sudan
- ⑤ Agriculture progressive backwardness → led to hunger & famine in South Africa.
- ⑥ Legacy of corruption (eg) Zimbabwe president (Robert Mugabe).

However, after 1992, slow in some African nations democracy can be seen due to effect of Nelson Mandela's legacy (eg) Tanzania.

6. Sustainable urban development needs mindful reassessment of land use patterns.  
Discuss. (10 marks, 150 words)

Sustainable urban development means the urbanisation taking into account the long term sustainability in mind without exploiting the resources.

As per UN Study, India will have 60% urbanized by 2050.

Issue with current Urbanization & land use

- ① Large scale deforestation → It is leading to Urban Island effect.
- ② Destruction of Natural wetland  
(eg) Bangalore city
- ③ unplanned infrastructure leading to lack of air circulation which further leads to Air pollution (eg) Delhi
- ④ water stress due to inadequate drainage

keeping in mind, we need reassessment of land use pattern for sustainability

- ① Green space and forest cover need to be increased (Eg) Nagar Van Yojana
- ② wetland need to be preserved for filtration of toxic water & natural aesthetics
- ③ Planned city infrastructure to use spaces properly, with proper drainage
- ④ Agriculture land needs to be used properly for urbanism keeping in mind food security.
- ⑤ mausoleum → should be away from urban spaces for sustainability.

sustainability of urban cities need proper city-wise planning & proper land use pattern.

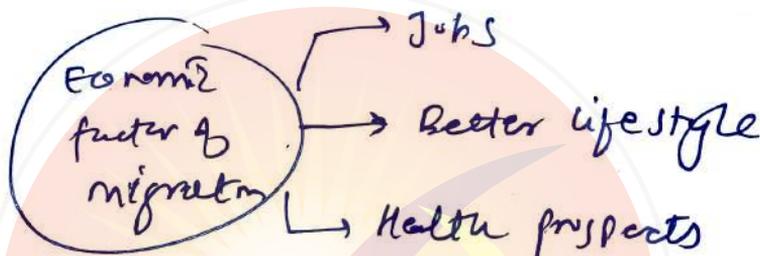

Tier-2 & Tier 3 city should keep in mind.

Students should not write anything inside the box

7. Socio-cultural factors more than economic factors influence women migration patterns in India. Discuss. (10 marks, 150 words)

migration patterns in India are mostly from Rural to urban generally. It is process of moving away from one place & settling at another. (Es) 40% population migrated (inter & intra state)

However for women, Economic factor like job are not primary cause of migration.

## Socio cultural factors for women migration

① Highest migration between districts (intra-state)

→ caused by marriage  
→ husbands movement

# VAJIRAM & RAVI

- ② women migration due to mobility of husband to city → most time due to marriage women follow husband to new jobs.
- ③ Patriarchal values → in society leads to lack of Economic mobility (eg) Education & job purpose.
- ④ Lack of Education and skill lead to low level jobs (eg) Construction work, cook
- ⑤ Rural women move toward city due to socio-cultural factors like → lack of land  
Exploitation  
Lack of land

Government should take into account migration pattern for proper registration & rehabilitation in cities.

Students should not write anything inside the box

8. Discuss the significance of the IT industries in promoting regional development in India. (10 marks, 150 words)

IT industry today contributes to 8% of GDP of India & contain major part of service sector jobs, so they promote regional development

(eg) TCS (Data Consulting services)

## Significance of IT in Regional development

① software/IT jobs leading to jobs & better amenities

(eg) Bengaluru city (Silicon valley of India) → Amazon office, Samsung, Microsoft

② Ancillary activity promotion like food outlets, gig jobs, housing and accommodation.

③ Business processing industry leading to development (eg) Coimbatore

(4) IT industry promote better FDI in local area & CSR expenditure in building community goods.

(eg) Schools in Jharkhand → For Tribal children

(5) Emergence of Tier 2- and Tier-3 cities due to IT jobs

(eg) ~~the~~ software & Technology parks in India (mostly in New cities)

(6) Demand of Raw material (Vegetables, Milk) → development of local Agriculture

(eg) Noida city → shepherd farmer.

due to IT industry significant Government is trying to promote more IT sector using Smart city mission and digital India mission.

Marks:	

9. Explain the formation of islands in the Indian Ocean Region with suitable examples. (10 marks, 150 words)

Islands are formed by many geological phenomenon like volcano etc. There are many islands in Indian Ocean Region (IOR)  
(eg) Indonesian Archipelago.

### Formation of Island in IOR

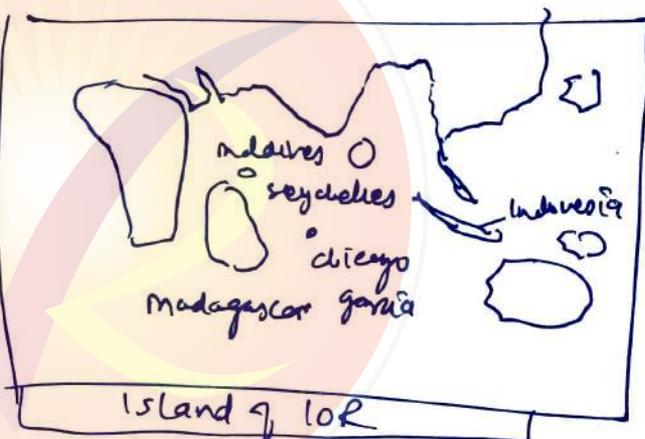

(1) volcanic origin

↓

Due to volcano on oceanic plates

(eg) Indonesian

small islands.

(2) Continental originated Island → due to fracture on continental plate

(eg) Madagascar Island breaking away from Africa (Rift)

# VAJIRAM & RAVI

3) Coral origin many islands are formed by coral formation due to carbonate formation (eg) Lakshadweep Island.

4) Artificial islands are new features which are created to increase EEZ

5) Formation of middives using lava & magma formation

Islands are important for various biodiversity, however their survival is threatened due to climate change

6) Australia - Great Barrier Reef

Marks:	

10. Mention the global occurrences of major tropical cyclones in 2023 and 2024. Also, explain their impacts on local communities. (10 marks, 150 words)

Tropical cyclone are low pressure cyclone which occur due to high temperature ( $27^{\circ}\text{C}$ ) in ocean & mostly formed in sea (Eg) Bay of Bengal cyclone.

### Global occurrences of major tropical cyclones

Figure → major tropical cyclones (world)

- ① Cyclones → Biparjoy (Arabian sea origin)  
→ Mocha (West Bengal)  
(origin - Bay of Bengal)
- ② Hurricane → Storm Denial in mediterranean sea

② Typhoon → (Eg) Japan Island  
 destruction 2023.  
 ↳ china flooding

Impact of Tropical cyclone on local communities

- ① Destruction of Infrastructure → houses, bridge, communication, light cables etc.
- ② Human lives destruction due to high intensity
- ③ Economic Impact (Eg) Cyclone Biparjya  
 ON study → 14 \$ B loss in all affected nations
- ④ Biodiversity destruction → (Eg) Plankton
- ⑤ displacement & migration (Eg) Refugee crisis.

Cyclone require early warning robustness & advance preparedness.

odisha model helped in (o) causality in Feni cyclone (2019)

# VAJIRAM & RAVI

11. Mahatma Gandhi described himself as a 'true disciple' of Balgangadhar Tilak despite having political differences. In this context, analyse the similarities and differences between Gandhian methods and extremism. (15 marks, 250 words)

Gandhi & Tilak both led Indian freedom struggle with their capacity & charismatic aura ultimately leading to freedom.

Gandhi said he learned a lot from Tilak despite differences. Similar views & respect was showered by Tilak.

Difference b/w Gandhian method & extremism

Elements	Gandhian method	Extremism
① Tools	Gandhian methods used Tool → Satyagraha ↳ Non-violence ↳ Boycott ↳ Non-cooperation	Tools. — Passive Resistance — Economic Boycott — Violence in mild form
② Nature	secular nature	Use of festivals

③ leaders

(eg) participation of all  
(Hindu - muslim)  
worker, peasant

led by leader like  
Gopal Krishna Gokhale  
S. Banerjee

(eg) Ganesha  
festival for  
awakening

(eg) Bipinendra Pal  
Anandabindo Ghosh.

④ strategy

→ signing petition  
& pledging to  
British government  
for concessions

→ use of passive  
resistance &  
devoiding fear in  
British government

(eg) → non-cooperation  
→ non-cooperation  
strategy

(eg) Nasir's murder  
→ activities of  
Anusilan Samiti

⑤ participation

wide masses  
(involvement of  
all)

→ mass participation

⑥ use of media

less

→ most propaganda  
using periodicals

VAJIRAM & RAVI

## Similarities b/w Gandhian & extremism

- ① Both led to awakening among masses against Common struggle.
- ② Both supported Economic Boycott of British goods & use of swadeshi.
- ③ Aim of Both was same → ultimately Indian freedom, although means varied.
- ④ Both expanded rapidly among masses.

Indian freedom struggle due to various ideological strands — Gandhian, socialism, extremism, communists had support in various form.

Marks:	

12. 'Partition was a necessary evil to get rid of British rule and prevent a complete breakdown of law and order.' Analyse. (15 marks, 250 words)

Partition of India happened after Alee's announcement & Mountbatten's 3rd June Plan & led to division of India under Partition into 2 major nations.

Partition was necessary evil

- ① Communalism at Peak → Due to Admont of Jinnah, every talks were preaching, leading to non-conclusion (eg) Shimla Talks (1946)
- ② Violent & Turbulent Times showed that no going back on without partition (eg) Direct Action day violence in Bihar & West Bengal (1946)
- ③ Partition → ultimate peaceful transfer of power tool. Any other

option could have led to fight among two communities in various level → Administration (Bureaucracy), Army etc.

④ British after WWII did not wanted more time in India specially after Royal mutiny of 1946 (Bombay)

↳ no interest in law & order from British side.

⑤ Animosity between Hindu & muslim due to virulent form of Communalism

↳ Both saw each other as a threat

⑥ ~~Even~~ threat of destruction of property, civilian life, administrative concern

ultimately led to acceptance of partition.

⑦ However UNITY of India was maintained

# VAJIRAM & RAVI

as shown in integrity princely state  
and state like Jamgarh, Hyderabad &  
Kashmir.

Partition could have been avoided as  
per critics

- ① critics said that elite political circle  
wanted power at earliest.
- ② No healing steps was taken by Congress  
except Gandhiji during Bengal violence
- ③ It led to division of Army, Bureaucracy  
& Population
- ④ Even Partition resulted in violence  
due to abruptness & movement.

Partition became necessary evil,  
however better advance planning &  
preparedness could have avoided the  
mass blood shed & widespread confusion

Students should not write anything inside the box

13. To what extent urbanisation has influenced the social hierarchy in Indian society? Explain. (15 marks, 250 words)

Urbanisation in India today is mixed (35%) which is leading to both equality & marginalization, being a dual-edged sword.

Urbanisation reducing social hierarchy

- ① Urbanisation led to decrease in ascriptive identities like caste etc.  
(eg) Formal jobs required merit
- ② It provided values of equality, opportunity to migrated populations
- ③ Urbanisation led to proliferation of job for landless labor, & Backward section (eg) shops, City Economy
- ④ Avenue of social mobility for lower → jobs & education in cities

(5) Rational values like achievement based society, Brotherhood → Reducing in social hierarchy.

(6) Attraction patriarchal values → Urbanization gave flexibility to women in work and home

(eg) Joint Gajug & Role  
(Urban families)

However, on other side it have led to further marginalization

(1) Slum habitats → Preference of slum shows poor way of living, with deplorable conditions

(eg) 27% Urban population lives in slum with no basic amenities

(2) Ghettoisation, → Poor & marginalized living in separate colonies.

(eg) Delmiki Colony (Delhi)  
Jat Residence hostel etc

(Don't write anything in this part)

# VAJIRAM & RAVI

(Don't write anything in this part)

- 3)  gated society show hierarchy present in Urban city (eg) Noida posh areas.
- 4) urbanification → led to rise of prices for land → marginalisation & non-affordability for poor.
- 5) Feminisation of Agriculture → migration mostly happen for men.
- 6) Women still doing informal jobs (>95% working women) in Agriculture
- 7) Patriarchal attitude is seen in many cases of honour killing, caste based violence, gender based violence.

Further steps like enforcement of legislation like (DV 2005, Prevention of Atrocities Act 1989), and awareness about exclusion needed for true realization of justice envisaged by Ambedkar

Students should not write anything inside the box

Marks:	

14. Globalisation expanded the market opportunities for goods and services beyond domestic territories. Discuss the effects of globalisation on the Indian craft industry with examples. (15 marks, 250 words)

Globalisation is process of interconnectedness and integration of global societies using help of information, communication technologies (ICT).

Effect of globalisation of Indian handicraft industries

① Positive effect

→ Global market due to

# VAJIRAM & RAVI

- availability of internet platforms
  - (eg) Amazon selling craft products online
- Exchange of technology leading to modernization of handicraft industries
- Better monetary values due to demand
- Recognition of talented artisans
  - (eg) PM giving handicraft as nunents → Kalamkari paintings
- GI tags → marketing & Branding
  - (eg) Kashmiri shawls.
- Top Destination → gems cutting & diamonds
  - (eg) Surat & Jaipur
  - ↳ women clothing
    - (eg) Bandhej.
- craft like (eg) sojat Mehndi

however Globalization had negative impact  
too →

- decline in local culture due to Globalization.
- Copyright issue (eg) Companies getting patent on local traditional knowledge
- uneven development of Art & Craft
  - (eg) Paintings of Kalamasi recognition, but not of larger paintings at global level

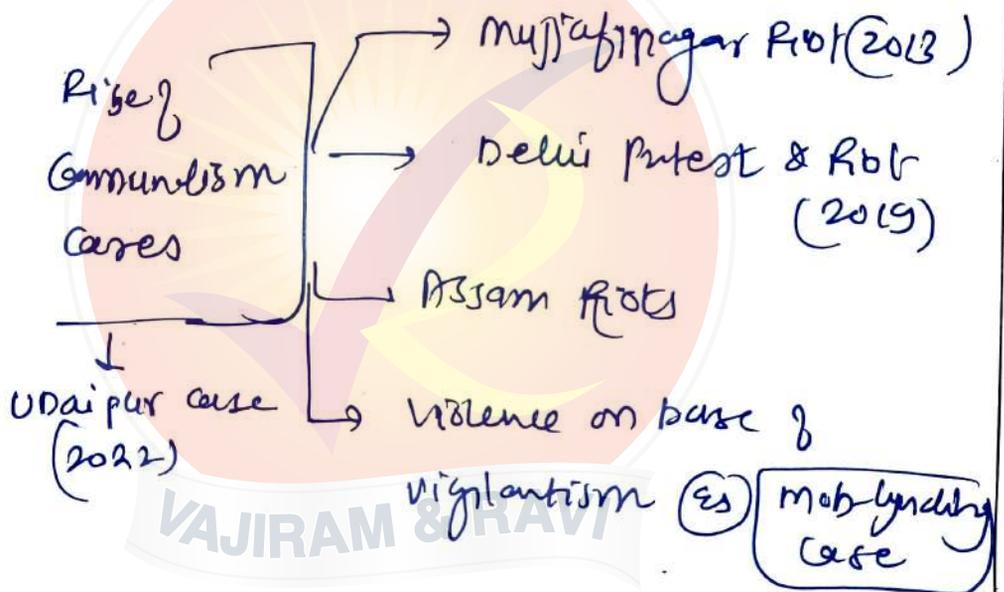

Globalisation has provided a good opportunity for development of Indian handicrafts. ONDC will help to democratise of Online selling, further steps like ODOP (one district one product) and GI are should be taken at large scale

15. Rise of communalism in secular India threatens the social fabric and public order. Discuss the measures to contain the spread of communalism. (15 marks, 250 words)

Ram Anuja defines Communalism as having a antagonistic feelings for other Community, whose interest are not only seen different but seen as against the Community.

Rise of Communalism threatens social fabric

① Attack of diversity → Communitism bases on primacy of one community over another

- ② Attack on secular character of society  
↳ Communalism leads to feeling of  
hate toward other Community.
- ③ Public order with peaceful living is  
disrupted by communal violence.
- ④ mob lynching → Riots in (UP).
- ④ Proliferation of hate by communalism  
leads to decrease in values of  
Tolerance & Brotherhood.
- ⑤ Life & safety for women & children  
in any violence

Measure to contain spread of communalism

① Legislative measure

- ↳ mob lynching Act on basis of learning  
from USA
- ↳ RPA 1951 Act proper reinforcement

# VAJIRAM & RAVI

to increase accountability of politician during election

② criminal justice system → under BNS communalism should be defined properly which should contain any form of prejudices & hate.

③ Role model of Gandhi, Ambedkar, Mulana Abdul azad etc should be shown to awaken masses.

④ Judiciary protecting constitution values of secularism, equality & Brotherhood

(eg) SC guidelines on mob lynching.

⑤ use of common festival celebration for increasing tolerance.

⑥ Even & Balanced development

solution lies in our values given by constitution, they should be respected by all.

16. Describe the distribution of major palm oil producing countries. Also, indicate the major environmental issues faced by them. (15 marks, 250 words)

Palm oil producing countries majority lies in equatorial region with better rainfall. Due to lack of domestic palm oil, recently government focus on palm oil is increasing (80% imported).

### Distribution of palm oil countries

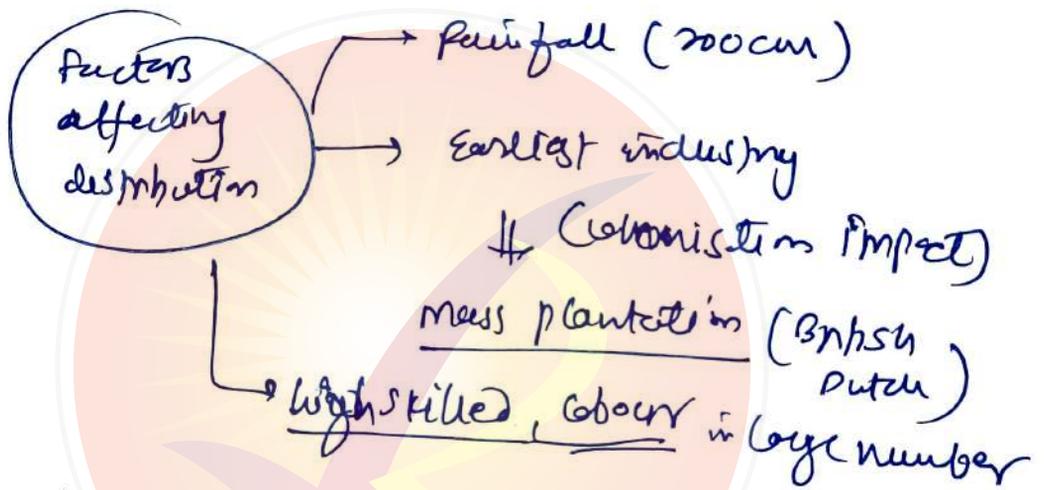

#### ① South East Asia

- ↳ Indonesia → one of largest exporter
- ↳ Malaysia → highest palm oil production due to better agro technologies
- ↳ Thailand

# VAJIRAM & RAVI

- ② Africa — Nigeria have good production of palm oil.
- ③ Latin America like Colombia & Brazil
- ④ North America — southern side of Mexico

major environmental issue faced by palm oil producing nations

- ① Deforestation & Biodiversity destruction due to large scale agricultural plantation
- ② lack of soil productivity & crop

# VAJIRAM & RAVI

Productivity → Due to impact of palm oil on soil → not sustainable in long term

③ water stress on areas due to requirement in palm oil industry

④ Pollution due to palm oil industry

↳ environmental hazards like climate change etc

Due to high import, India has taken steps like NMEO-OP for oil palm promotion in North Eastern area, however environmental concern should be kept in mind

Students should not write anything inside the box

17. Discuss the importance of water as the chief architect of the earth surface.

(15 marks, 250 words)

Water in ocean area cover more than 70% of area of earth, and it is hub of large scale biodiversity, making it a chief architect of earth surface.

## Importance of water as chief Architect

- ① formation of sandbar island & coral island require water & inhibited coral phytoplankton & zooplankton
- ② Coastal erosion & coastal formation  
↳ water is major architect (eg) Tambalao  
↳ (eg) India - 12 Blue certified Beaches by AFB Denmark.
- ③ ocean current → chief architect of fish industry → mixing of cold & warm  
↳ (eg) Japan (oyashio & kuroshio)

# VAJIRAM & RAVI

(Don't write anything in this part)

④ Melting of glaciers → warm Atlantic current of water changing landscape.

eg hmsdny 29

⑤ River Topography

↳ formation of deltas, valleys.

↳ Rapid falls & waterfalls.

↳ creation of meander & alluvial plains.

⑥ Water → erosion

↳ Chambal Badlands & karries

⑦ creation of beautiful landscape

Use Fjord formation in Norway

⑧ Karst topography → water acts as major agent in formation of earth.

eg stalactite & stalagmite formation in caves. (limestone)

Don't write anything in this part)

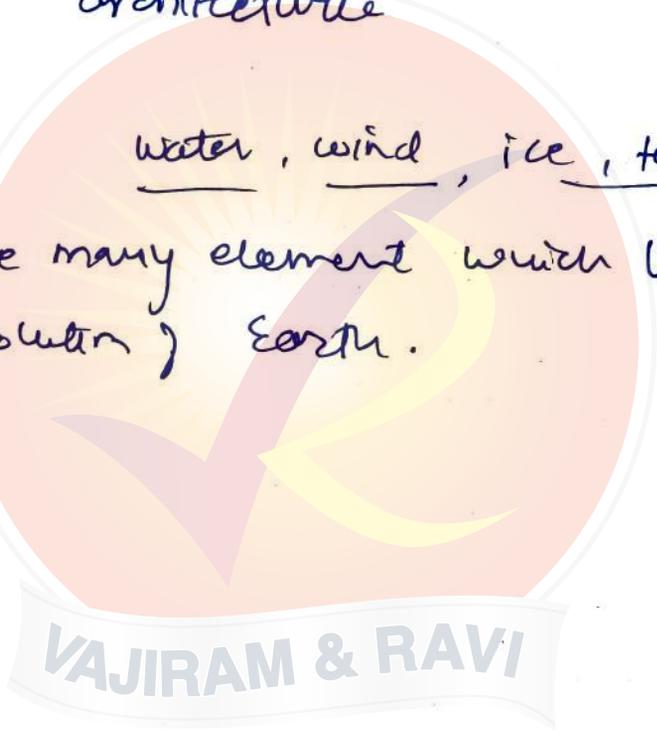

# VAJIRAM & RAVI

Reason of water being a biggest Agent

- ① Force of Abrasion due to water friction during flow
- ② Sedimentary flow & deposition
- ③ Erosive power of water leading to architecture

water, wind, ice, temperature

are many element which helps in evolution of Earth.

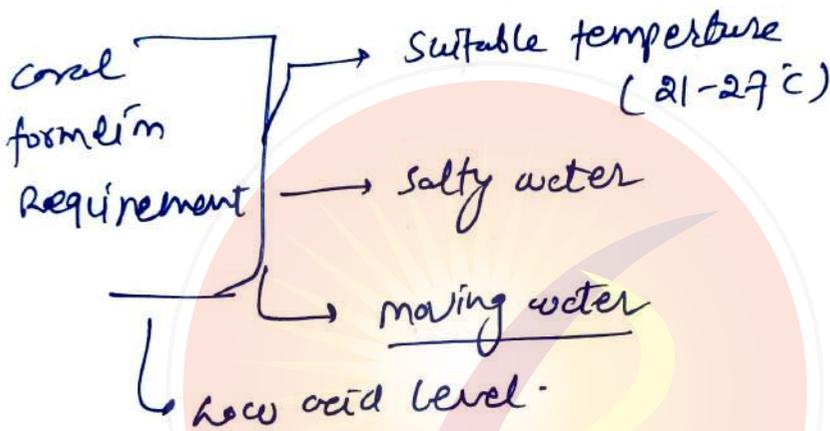

Students should not write anything inside the box

Marks:	

18. 'Tropical rainforests of the ocean are under serious threat of existence.' Discuss. Also suggest measures to rejuvenate these critical ecosystems.

(15 marks, 250 words)

Tropical Rainforest of ocean known mostly as coral are serious threat due to climate change & various phenomena.

## Threats to Tropical Rainforest of Oceans

- ① increase in temperature (SST) → leading to major coral Bleaching event  
(eg) H hill now ⇒ Great Barrier Reef (Australia)
- ② marine heat waves occurrence leading to increased destruction

- ③ increased flow of melted freshwater leads to sedimentation increase
- ④ Human as threat → destroying coral for food & subsistence purpose
- ⑤ River & water pollution → due to industrial nonpoint sources
  - (eg) Release of Acid
- ⑥ ocean Acidification increased by 30%. (8.2 → 8.1) during industrialization period
- ⑦ Agricultural pesticide use → leads to increase of Nitrogen & phosphate runoff
  - ↳ Eutrophication + Algal Bloom → ↓ O<sub>2</sub>

Measures to Rejuvenate entire ecosystem

- ① Use of technology to Regenerate
  - (eg) Bioremediation technology in cleanup

- ② International collaboration  
(eg) ICRI ( International Coral Reef Initiative )  
putting efforts to save Great Barrier Reef
- ③ Control on climate temperature increase
- ④ Reducing sediments (dredging) & use of fertilizer in Agriculture  
(eg) organic farming
- ⑤ Fulfillment of intentionally determined contribution under PARIS CLIMATE DEAL
- ⑥ Local communities knowledge & collaboration  
↳ Agent for rejuvenation.

IPCC-6 Report says 1.5°C increase will lead to destruction of CORALS & seaweeds at large scale - It needs practical participation from all stakeholders

Students should not write anything inside the box

19. Explain the reasons for geographical concentration of ozone holes. What are the remedial measures to ozone depletion? (15 marks, 250 words)

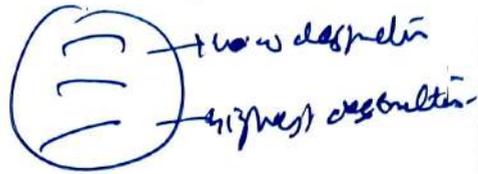

Ozone hole is destruction of ozone in stratosphere which helps the earth from harmful UV Rays & warming of earth.

(Eg) Arctic hole

Reason for geographical concentration

- ① Polar stratospheric cloud formation on Arctic pole leads to destruction in winter (Eg) chlorine element) due to industrialization in Northern hemisphere
- ② Antarctica hole is mostly due to warm ocean current → melting & Carbon release → warming
- ③ Due to pollution, formation of ozone at Tropospheric level  
(Eg) Bad ozone (PAN)  
↓  
poly methyl Nitrate

④ warming in troposphere leading to variation of ozone depletion w.r.t Altitude

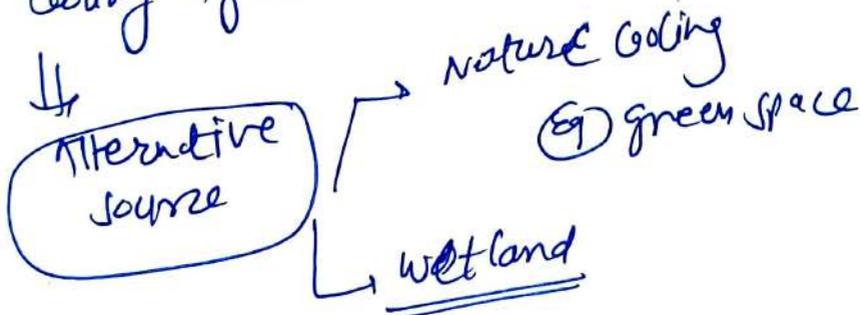

## Remedial measures to ozone depletion

① International collaboration

↳ Kyoto Protocol } → Reduce the  
↳ Montreal Protocol } ozone depletion  
substance

(eg) NFCs, NCFCS

② Reducing CFC released by  
Cooling Agents like AC & Refrigerators

(Don't write anything in this part)

# VAJIRAM & RAVI

(Don't write anything in this part)

③ Heat Action plan at level of city for better formulation  
(eg) 2019 Ahmedabad heat Action plan

④ Geoengineering

- Stratospheric Aerosol Injection (SAI)
- mirror clouds to reduce warming

⑤ Artificial ozone creation using technology

⑥ Kanmyo-montreal protocol to reduce human induced pollution.

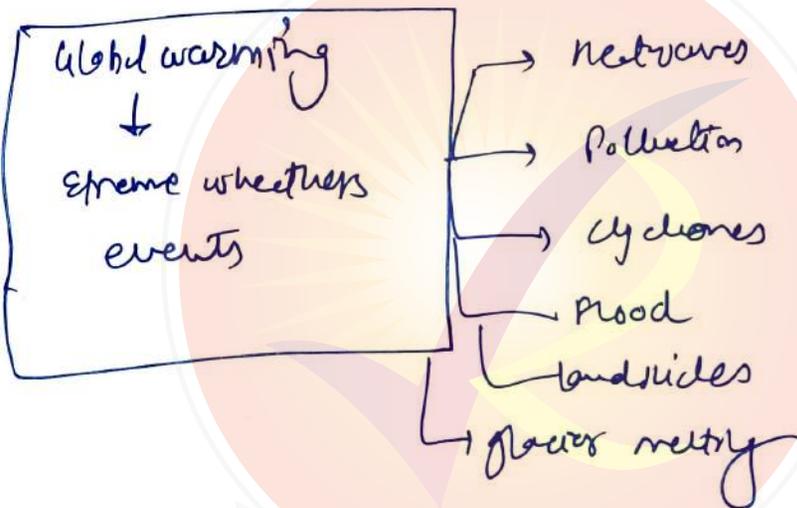

ozone being a lifeline for Earth's heat balance needs the protection. Every element with global warming potential (GWP) needs to be credited.

Marks:	

20. 'Global warming increasingly contributes to extreme weather events.' Examine the statement with special focus on recent events of natural hazards in the Indian subcontinent. (15 marks, 250 words)

Global warming defined as warming of Earth temperature. IPCC Report 6 says today Earth is 1.09°C warmer than in pre-industrial times (1880C)

### Cause of global warming

- ① vehicular pollution → Release of SO<sub>2</sub>  
↳ warming of urban area
- ② Agriculture → Release of N<sub>2</sub>P<sub>2</sub>  
↳ Methane Release (livestock)
- ③ Human Activity & tools (Eg) AC, (white goods)

- ① Natural → Volcanoes
- ⑤ Energy & Industrial → integrity due to local sustainability

## Natural hazards in Indian subcontinent

- ① Increased frequency, Cyclones  
↳ rise to report, cyclone intensity increased by 80% in Arabian sea (2001-2019)  
(eg) cyclone Biparjoy etc.
- ② Flood occurrence due to sea level rise & temperature → expansion of water  
(eg) Kerala, Assam floods
- ③ Heatwaves → Due to variation in rainfall & drought → frequent occurrence in Indian subcontinent  
(eg) UP — deaths due to heatwave (2024 summer)

- 4) landslides due to increased intensity of water flow
- (eg) chamoli destroin; western ghats.
- 5) frequent flash floods & cloudburst
- (eg) Uttarakhand disaster & Anamity Yatra.

India being one of most vulnerable countries need to collaborate at global forum. steps like CDRI, International Solar Alliance are in right direction to reduce impact of extreme weather.
