# About the Program

**SureShotSeniorSuper50** is designed for aspirants who've written Mains before and now want marks, not more content. **The difference between 95 and 115 in a paper is just +1 extra mark in every answer — and this program engineers exactly that.** By mastering **PYQ demand decoding, answer templates, precision value-addition, and ranker thought process**, you learn how to write smarter lines, tighter structure, and high-impact points that naturally fetch 1 extra mark per question

**Eligibility Criteria** - Candidate must have written at least one UPSC CSE Mains.

## PROGRAM FEATURES

- 1. 40+ PYQ Anchored Reverse-Engineering Brainstorming Sessions in Recorded format for Every GS Topic – Decode PYQs at root level** — Identify why the question was asked, what UPSC expected, and how marks are awarded in real papers.
- 2. Theme, Structure & Template Identification for Every Topic** - Every session extracts the exact demand, ideal structure, and reusable answer templates for each topic and sub-topic.
- 3. Finalizing 1-Pager Notes After Each Brainstorming** - Students convert learnings into **crisp 1-page, exam-ready notes for revision before Prelims** and deployment in Mains.
- 4. 25 Tests including 2 Essay Tests (Template Application Tests)** - Not just writing tests — applying the exact templates and structures decoded in PYQ sessions.
- 5. 1:1 Mentoring With UPSC Rankers & Senior Subject Experts Only** - No generic mentorship — **only battle-tested rankers and senior SMEs** guide you on strategy, gaps, optimization, and scoring.
- 6. One Pager MAINS SMASHER Notes** - Topic-wise, exam-ready sheets with **frameworks, introductions, conclusions, and high-ROI value additions** to revise before Mains.
- 7. Weekly Group Discussion on Best Copies After Every Test** - Top evaluated answers are discussed live to understand **why they scored, what made them different, and how to replicate it.**

**Many senior aspirants restart preparation every year — but very few stop to ask the real questions:**

- Practice Isn't the Problem, Smart Practice Is the Gap**  
Seniors don't lack writing volume — they lack score maximization per question. Without decoding structure and demand, even 200 answers won't move the needle.
- Everyone Solves PYQs, Very Few Decode Their DNA**  
Unless someone shows you how UPSC repeats themes, shifts demand, and rewards structure, PYQs remain a ritual, not a weapon.
- Answer Writing Without Template Mastery Is Just Story Writing**  
Seniors need frameworks that can be applied instantly to unseen PYQs — not long notes or generic structures.
- One Extra Mark Per Question Isn't Luck — It's Engineering**  
The difference between 90 and 115 in a paper is not knowledge, it's clarity, structure, impact phrasing and value precision.
- Notes Don't Fail Students — Unrevised Notes Do**  
Seniors collapse not because notes are insufficient, but because notes are *not* revision-friendly or answer-ready.
- Model Answers Don't Create Rankers — Thinking Process Does**  
Seniors need to learn how toppers think while writing, not just what toppers write after writing.

## What Does This Program Offer (For Senior Aspirants)

### 1. PYQ Reverse-Engineering Workshops

- 20+ years PYQs decoded into themes, sub-themes & scoring patterns\
- Identify what UPSC repeats and what UPSC rewards

**Outcome:** No blind solving. Only targeted, theme-driven prep

### 2. Examiner-Demand Decoding

- See how UPSC's questions evolved (factual → analytical → multi-dimensional)
- Learn the real demand behind every question line

**Outcome:** You write what UPSC wants, not what you know

### 3. Static-Dynamic Linking That Adds Marks

- Weekly sessions to convert current affairs into answer-ready PYQ themes
- No separate notes. Only usable points for answers

**Outcome:** Answers become complete, relevant & impactful

### 4. Answer Architecture (Template Mastery, No Story Writing)

- Ready-to-use structures for any topic and any demand
- Live demo: Rankers build answers from scratch

**Outcome:** Answers look structured, intentional and score-oriented

### 5. +1 Mark Engineering Before Every Test

- Pre-test capsules: SC judgments, committees, data, examples
- Quick recall 1-page sheets for instant revision

**Outcome:** Confidence backed by content, not guesswork

### 6. Learn Ranker Thinking, Not Just Ranker Answers

- See how toppers think while framing answers
- 1:1 mentoring with rankers to fix writing & scoring gaps

**Outcome:** Mindset upgrade, not model answer dependency

## Terms & Conditions

- Your test copies will be evaluated within **7 working days** from the date of submission.
- There is **no difference** between the online and offline modes. You can choose to write the test at our **Test Centre** or attempt it from home and **upload the scanned answer sheets on the Vajiram & Ravi student portal** for evaluation.
- Each course is linked to a **specific Vajiram & Ravi student account**, created using your registered mobile number and email ID. **Sharing of course access is strictly prohibited.** If found, we reserve the right to **terminate access without any refund.**
- This program is **non-refundable** and **non-transferable.** Once enrolled, the course cannot be transferred to another person, and no refund will be issued under any circumstances.
- Admissions will close once the batch is full. Vajiram and Ravi reserves all rights to make any changes in the schedule of the Sure Shot Mains Test Series if any unforeseen situation arises.
- **Course access is valid until August 2026.** No extensions will be granted beyond this date.
- By enrolling, you confirm that you have **read and agreed** to all the terms and conditions mentioned above.

**Fees - 16,500 INR Only Including GST**
